## **Studies In Agrarian Social Structure:**

Studies in Agrarian Social Structure André Béteille,1974 The Author's Main Concern In This Work Is With Patterns Of Inequality And Conflict As These Arise From The Ownership Control And Use Of Land A Subject Of Crucial Importance To An Understanding Of Conditions In India      **Studies in Agrarian Social Structure** André Béteille,1974      India: Cultural

Patterns And Processes Allen G. Noble,2019-03-01 In this comprehensive analysis of India's cultural patterns and processes the authors address both the diversity and the unity of India's culture emphasizing the spatial distribution of cultural forms

Caste and Class in Agrarian Society T. M. Dak,1985      Peasant History of Late Pre-colonial and Colonial India B. B. Chaudhuri,2008      **Social Movements in India** Ghanshyam Shah,2004-04-08 Social movements hasn't been a popular topic with researchers making up less than 3 per cent of all studies in history political science sociology and anthropology sponsored by the Indian Council of Social Science Research ICSSR up to the mid nineties The research has had an institutional or government skew in that the study of the politics of the masses has been largely ignored There are reasons of history behind this but what has been consistently lost sight of is the fact that in the absence of an understanding of the politics of the masses the functioning of the state can be understood only partially This volume is a revised and enlarged edition of the author's review of literature on social movements in India first commissioned by the ICSSR After careful deliberation on the ideal definition of a social movement the author adopts for this volume the loose idea of non institutionalised collective political action striving for social and political change On the basis of the socio economic characteristics of participants and the issues involved this volume makes a nine fold classification of social movements peasant movements tribal movements dalit movements backward caste movements women's movements working class movements students movements middle class movements and human rights and environmental movements added in this edition This book is important as much for filling a scholarly lacuna in social science studies as for proposing and executing an orderly classification of literature on social movements in modern India The original shorter monograph received an enthusiastic response from both scholars and laypersons and this volume is likely to be welcomed similarly      Participation, Development and Social Structure Bazlul M. Karim,1994-04-26 M Bazlul Karim surveys the problems and prospects of participatory development involving the primarily rural poor in developing countries The case study focuses exclusively on Bangladesh with considerable emphasis on theoretical and comparative analysis as well The author uses Weberian notion of social stratification as the theoretical guidance in examining the nature of inequalities in wealth status and power These stratification variables are examined in depth in regard to various types of participation participation in development programs social participation and political participation      Agrarian Social Structure Manoshi Mitra,1985      Brazilian Agrarian Social Movements Rebecca Tarlau,Anthony Pahnke,2018-02-02 Contradictions between impressive levels of economic growth and the persistence of poverty and inequality are perhaps nowhere more evident than in rural Brazil While

Brazil might appear to be an example of the potential harmony between large scale export oriented agribusiness and small scale family farming high levels of rural resistance contradict this vision In this volume individual contributions from a variety of researchers across the field highlight seven key characteristics of contemporary Brazilian resistance that have broader resonance in the region and beyond the growth of international networks the changing structure of state society collaboration the deepening of territorial claims the importance of autonomy the development of alternative economies continued opposition to dispossession and struggles over the meaning of nature By analyzing rural mobilization in Brazil this collection offers a range of insights relevant to rural contention globally Each contribution in this title increases our understanding of alternative agricultural production large scale development projects education race and political parties in the contemporary agrarian context This book was previously published as a special issue of the Journal of Peasant Studies

Frankel,M. S. A. Rao,1989 In these two volumes scholars of political science sociology and history adopt a common set of concepts to analyse patterns of change in the ideological and structural foundations of dominance in India from the colonial period to the mid 1980s Departing from modernist theories these scholars set out an interactional framework of society state relations where caste class ethnicity and dominance are treated as structures and processes interacting with each other and with increasingly powerful state institutions These comparative studies provide an explanation of how state policies undermine the religious legitimacy of the hierarchical social order and at the same time facilitate the manipulation of linguistic communal caste and ethnic loyalties to diffuse class polarization The analyses show that subordinate low caste cum class groups are mounting increasingly militant challenges to the hold of the upper castes and classes over state institutions which have provided the most important avenue of social mobility in modern India Provided by publisher *Journal of the Institute of Asian Studies* ,1986 *The Journal of the Institute of Bangladesh Studies* Rajshahi University.
