## **Studies In Bibliography Volume 14 1961:**

**Literary Critics and Reviewers in Early 19th-Century Britain** Peter F. Morgan,2025-08-01 The nineteenth century saw the growth of several major magazines devoted to the reviewing of contemporary literature The new popular importance that literature was beginning to enjoy in particular the novel form inevitably led to a change in the way literature was discussed and perceived Three of the major reviews of the period that reflected this new outlook are discussed in *Literary Critics and Reviewers in Early 19th Century Britain* originally published in 1983 the Whig Edinburgh Review founded in 1804 the Quarterly Review the government counterblast begun five years later and the Westminster Review the radical paper first instituted in 1824 Each of these received contributions from major writers themselves such as Carlyle Macaulay Scott

Southe and Mill These together with Jeffrey Lockhart and Croker form the main subject of this book By examining the work of each writer the author conveys a sense of the richness and variety of the field The criticism examined is important

intrinsically but also it is seen in the context of the philosophy and personality of the individual critic and his important role in the review especially as mediating between literature and the reading public *Keats's Reading / Reading Keats* Beth Lau, Greg Kucich, Daniel Johnson, 2022-02-12 This book explores John Keats's reading practices and intertextual dialogues with other writers It also examines later writers' engagements with Keats's poetry Finally the book honors the distinguished Keats scholar Jack Stillinger and includes an essay surveying his career as well as a bibliography of his major publications The first section of the volume *Theorizing Keats's Reading* contains four essays that identify major patterns in the poet's reading habits and responses to other works The next section *Keats's Reading* consists of six essays that examine Keats's work in relation to specific earlier authors and texts The four essays in the third section *Reading Keats* consider how Keats's poetry influenced the work of later writers and became embedded in British and American literary traditions The final section of the book *Contemporary Poetic Responses* features three scholar poets who in poetry and or prose commentary discuss and exemplify Keats's impact on their work

*A Reference Guide for English Studies* Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L. Harner's *Literary Research Guide* Modern Language Assn of America 1989 larger academic libraries will want Marcuse's volume *Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal* *The Faxon Librarians' Guide to Periodicals and American Subscription Catalog*, 1962 *Bibliographies of Interest to the Atomic Energy*

Shortridge,1995 This engaging and richly annotated atlas illustrates the distribution of Kansas settlers from diverse cultural and ethnic origins in America and around the world James R Shortridge explores how frontier settlement patterns were influenced by railroad routes and promotion land prices and speculation practices homesteading laws U S and international social economic and political conditions terrain weather and pioneer perseverance He also demonstrates that many legacies of the original settlers have endured and are apparent today in social political agricultural and religious customs throughout the state Providing new and enlightening insight into a unique cultural heritage Peopling the Plains is an invaluable building block for anyone interested in the people and places of Kansas past and present    **Smelter Smoke in North America** John D.

Wirth,2000 Air pollution challenges nations sharing common borders to balance economic needs with protecting citizens and the environment across jurisdictions By examining landmark cases on the two borders John Wirth shows how environmental diplomacy citizen action at the grassroots level and the role of science industry and the law converged bringing Canada the United States and Mexico to the threshold of today s continental approaches to pollutant pathways Wirth first examines the famous Trail smelter conflict of 1927 1941 This precedent setting case which pitted U S farmers against the Canadian smelter resulted in the doctrine that in cases of transborder damage the polluter must pay Although the farmers were modestly compensated and the British Columbia based smelter cooperated to control pollution Wirth reveals the real significance of the decision U S industries shared with the Canadians a common interest to resolve the case in a manner that would allow them to continue to pollute freely across international borders with minimal regulation Wirth then turns to the

Gray Triangle confrontations of the 1980s in which the new instruments of the Clean Air Act and cooperative policies developed by the Mexican and U S governments established an entirely new climate for citizen action resulting in the closing of an American smelter in Arizona and the imposition of stricter standards on two Mexican smelters in Sonora Although the Trail precedent favored industry the Gray Triangle resolution signaled that the needs of industry and the public interest were now in better balance Drawing on extensive interviews and previously untapped archives Smelter Smoke in North America provides new analysis of the development of a North American institutional response to continental air pollution It chronicles how industry developed a continental perspective in a shared regional space the mineralized West and how successful efforts of governments and citizens to protect the environment evolved
