Studies In Lutheran Doctrine:

Studies in Lutheran Doctrine Paul F. Keller, Elmer Foelber, Harry Coiner, 2012-06-01 **Studies in Lutheran Doctrine**
Paul F. Keller, 1959 *Historical Dictionary of Lutheranism* Günther Gassmann, Mark W. Oldenburg, 2011-10-10 The Reformation of the 16th century was a complex and multifaceted political, social, cultural, and religious process. Most historians agree, however, that in the framework of this process it was the religious and theological efforts to reform and renew the late medieval church that were decadent and irrelevant in many ways. These were the initiating forces that set a broad historical movement in motion. Among these reforming religious and theological forces, the Lutheran reform movement was the most important and influential one. It was the historical impact of the theological genius of the Wittenberg professor Martin Luther (1483-1546) that profoundly changed and shaped the face of Europe and beyond. Today, Lutheranism has become a worldwide communion of churches that stretches from Germany to Siberia, Papua New Guinea, Madagascar, and Surinam. The second edition of the *Historical Dictionary of Lutheranism* presents information on major theological issues, historical developments of Lutheranism worldwide, Lutheran ecumenical and missionary involvement, and activities, worship, and liturgy, spirituality, social ethics, inter-religious and Jewish relations, Lutheranism and the arts, theology, and important representatives of Lutheranism. This is done through a detailed chronology, an introductory essay, an appendix of Lutheran Churches, a bibliography, and hundreds of cross-referenced dictionary entries. This book is an excellent access point for students, researchers, and anyone wanting to know more about Lutheranism.

Monica A. Coleman, Nancy R. Howell, Helene Tallon Russell, 2011-09-22 *Creating Women's Theology* engages women's questions. Can women from different religious traditions engage one theological approach? Can one philosophical approach support feminist religious thought? What kind of belief follows women's criticism of traditional Christianity? *Creating Women's Theology* offers a portrait of how some women have found room for faith and feminism. For the last twenty-five years, women religion scholars have synthesized process philosophy with their feminist sensibilities and faith commitments to highlight the value of experience, the importance of freedom and the interdependence of humanity, God, and all creation. Cutting across cultural and religious traditions, process relational feminist thought represents a theology that women have created. This volume offers an introduction to process and feminist theologies before presenting selections from canonical works in the field with study questions. This volume includes voices from Christianity, Judaism, goddess religion, the Black church, and indigenous religions. *Creating Women's Theology* invites new generations of undergraduate seminary and university graduate students to the methods and insights of process relational feminist theology.
