Philosophical Questions in Art Education

Dorit Barchana-Lorand,2025-08-21

This book examines the rationale of incorporating the arts in the school curriculum from a philosophical rather than pedagogical perspective Educational resources are frequently under scrutiny and education policy makers wish to maximize the use of public funds and children s time at school leaving the arts as a lower priority To understand the logic behind this Lorand revisits milestones in the history of the philosophy of art to address core questions in art education namely what are the challenges of teaching the arts And why teach the arts at all Lorand draws on the work of a broad range of philosophers including Dewey Eisner Greene Hume Plato Kant Langer Read and Schiller The book aims to show how attempts to justify art as a tool for societal and individual improvement fail in advocating art education Ultimately she claims that the arts should be taught because children have the right to receive art education That right stems from the unique nature of art

A Course on Aesthetics Renato Barilli,1993

A Course on Aesthetics offers a broad perspective of current scholarship in aesthetics without favouring any one particular school discipline or ideology Written in an elegant and clear style Barilli s text explores the basic inherent structures of human thought about the classification and evaluation of the arts Barilli avoids any binding or dogmatic conclusions about artistic assessment in his consideration of both historical and more current art forms such as video and performance art In doing so he presents a contemporary account of a scholarly concern In A Course on Aesthetics Barilli examines the aesthetic experience in general the passage from aesthetics to art the user of art and the critic In his brilliant analyses of the phenomenology of various forms of art from literature to music from painting to art from theatre to television he discusses the relationship between

representation and expression touching on many of the major questions debated in contemporary criticism A bibliography provides direction for further study of the history of aesthetics as a discipline Renato Barilli has published numerous books in Italian on poetics cultural theory and contemporary art including *Culturologia e Fenomenologia Degli Stili L Arte Contemporanea* and *Il Ciclo Del Postmoderno* The University of Minnesota Press has also published a translation of his *Rhetoric* 1989 Karen Pinkus is translator of Giorgio Agamben's *Language and Death* Minnesota 1991 *Program* Bryn Mawr College, 1890 *An Introduction to the Study of Aesthetics. by James C.
