Literature and other styles of modern Chinese writing Citizenship Education in China Kerry J. Kennedy, Gregory Fairbrother, Zhenzhou Zhao, 2013-10-15 There is a flourishing literature on citizenship education in China that is mostly unknown in the West Liberal political theorists often assume that only in democracy should citizens be prepared for their future responsibilities yet citizenship education in China has undergone a number of transformations as the political system has sought to cope with market reforms globalization and pressures both externally and within the country for broader political reforms Over the past decade Chinese scholars have been struggling for official recognition of citizenship education as a key component of the school curriculum in these changing contexts This book analyzes the citizenship education issues under discussion within China and aims to provide a voice for its scholars at a time when China's international role is becoming increasingly important Corporate Women in Contemporary China Xinyan Peng, 2022-05-02 Based on extensive multi-sited ethnographic research this book focuses on the culture of work in today's urban China and on how it has permeated beyond the workplace to shape bodily training family life and kinship and social relationships among white-collar women in their twenties and thirties Facing challenges to cope with the increasingly intensified dual burden of work and family white-collar women are not turning their backs on their jobs but are turning their bodies and homes into work In an era when the state and society heighten pressure on individual young women's productivity and reproductivity at the same time the book examines how white-collar women seek to protect their right to work embody a work ethic and make their reproductive life a productive domain Integrating studies of labor the body gender and kinship this book shows how the ethics and strictly defined discipline of hard work and overtime work are transposed from the office cubicle to the gym and home It thereby demonstrates how the emergence embodiment and extension of a work culture perpetuate the hegemony of the work ethic and how they have exerted a profound impact on women's bodies selves and lives Modern China, 1840-1972, 2020 Graduate students have traditionally learned a good part of what they know about sources and research aids on modern China through hearsay and serendipity in unsystematic and unreliable bits and pieces The field has now developed to the point where this need not and ought not to be so It is now possible for beginning researchers to start with some shared basic knowledge of research aids and documentary resources This research guide is meant to provide that knowledge The user of this guide is envisaged as an American graduate student in history or the social sciences who is already familiar with the major English language secondary literature on modern China and is about to begin original research either for a seminar paper or for a dissertation **Perspectives on Modern China** Kenneth Lieberthal, 1991 The conveners the editors of this book of the September 1989 Four Anniversaries China Conference in Annapolis asked the contributors to look back from that point in time to consider four major events in modern Chinese history in the perspective of the rapid changes that were shaping the Chinese society economy polity and sense of place in the world in the 1980s a time when China was making rapid strides toward becoming more integrated with the outside world With contributions by

distinguished scholars in the field the four anniversaries considered are the High Qing the May Fourth Movement forty years of communism in China and ten years of the Deng era **The Control of Sources for the Study of Contemporary China**
