A Practical Guide to Studying History Tracey Loughran,2017-01-12 PROSE Award Winner 2018 in the Textbook Humanities Category A Practical Guide to Studying History is the perfect guide for students embarking on degree level study The book introduces students to the concepts of historical objectivity frameworks and debate explains the differences in aims methods and audiences for different types of history explores the relationship between the skills developed during a history undergraduate degree and the practice of professional history helps students develop the practical skills required to read historical writing critically write good essays and participate in historical debates includes study questions further reading lists text boxes maps and illustrations The book incorporates case studies taken from a range of regions and periods reflecting the varied nature of historical study at university and helps students to understand history and to practice it successfully it is an indispensable guide to studying history

Why Study History? Marcus Collins,Peter N. Stearns,2020-05-27 Considering studying history at university Wondering whether a history degree will get you a good job and what you might earn Want to know what it's actually like to study history at degree level This book tells you what you need to know Studying any subject at degree level is an investment in the future that involves significant cost Now more than ever students and their parents need to weigh up the potential benefits of university courses That's where the Why Study series comes in This series of books aimed at students parents and teachers explains in practical terms the range and scope of an academic subject at university level and where it can lead in terms of careers or further study Each book sets out to enthuse the reader about its subject and answer the crucial questions that a college prospectus does not

Why Study History? John Fea,2024-03-26 What is the purpose of studying history How do we reflect on contemporary life from a historical perspective and can such reflection help us better understand ourselves the world around us and the God we worship and serve Written by an accomplished historian award winning author public evangelical spokesman and respected teacher this introductory textbook shows why Christians should study history how faith is brought to bear on our understanding of the past and how studying the past can help us more effectively love God and others John Fea shows that deep historical thinking can relieve us of our narcissism cultivate humility hospitality and love and transform our lives more fully into the image of Jesus Christ The first edition of this book has been used widely in Christian colleges across the country The second edition contains updates throughout

A Guide to the Study and Use of Military History John E. Jessup (Jr.),John E. Jessup,Robert W. Coakley,1979 This Guide to the Study and Use of Military History is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study It is not a

work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past **Teaching and Learning History** Geoff Timmins, Keith Vernon, Christine Kinealy, 2005-04-30 This book informed by exceptionally wide inquiry into current history teaching practices in the English speaking world is a real achievement The authors convey current context and challenges with great insight and they move through possibilities in sequencing content skills and assessment without strident comment extending our knowledge of options and pitfalls in the process Peter N Stearns Provost George Mason University Comprehensive persuasive and at all times accessible in style and argument this text both encourages and empowers university historians to review and enhance their teaching practices All key facets of programme development are explored with reference to an extensive and well chosen range of international examples The chapter on the historian's skills and qualities of mind is one of several that I will be referring to frequently Jeanine Graham Senior Lecturer History University of Waikato the varied findings make fascinating reading this book should be required reading for everyone involved in teaching history there is plenty here for us all to learn from ESCalate In providing such a clear informative and thoughtful exploration of the current state of history in higher education and in helping to raise the quality of critical debate about its future this book contributes greatly to the growing scholarship of teaching and learning in the discipline It should also become a vital resource for all historians who wish to honour the old dictum that in teaching as in research the one duty we owe history is to rewrite it Professor Paul Hyland Director of History in the Subject Centre for History Classics and Archaeology Extremely useful provides a thought provoking and useful discussion concerning the task of actually teaching history at university level This timely book needs to be read widely and the many issues it raises should command our closest attention Higher Education Review Over the last 10 years or so history as an academic discipline has become steeped in controversy and introspection Additional areas of interest have opened up fresh perspectives and approaches have been offered and new teaching and learning strategies have been advocated There has been an increasing emphasis on producing well qualified graduates equipped with the skills knowledge and attitudes to cope with the changing demands of the world of work This book suggests how these issues may be managed The authors identify and discuss the underlying principles and consider ways in which they can be applied at module and programme levels The **Teaching Learning in the Humanities** series edited by Ellie Chambers and Jan Parker is for beginning and experienced lecturers It deals with all aspects of teaching individual arts and humanities subjects in higher education Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline specific practices **Doing History** Mark Donnelly, Dr. Claire Norton, Claire Norton, 2011 History as an academic discipline has dramatically changed over the last few decades and has become much more exciting and varied as a result of ideas from other disciplines the influence of postmodernism and historians incorporation of their own theoretical reflections into their work The way history is studied at university level can vary

greatly from history at school or as represented in the media and Doing History bridges that gap Aimed at students of history in their final year of secondary education or beginning degrees this is the ideal introduction to studying history as an academic subject at university Doing History presents the ideas and debates that shape how we do history today covering arguments about nature of historical knowledge and the function of historical writing whether we can really ever know what happened in the past what sources historians depend on and whether the historians version of history has more value than popular histories This practical and accessible introduction to the discipline introduces students to these key discussions familiarises them with the important terms and issues equips them with the necessary vocabulary and encourages them to think about and engage with these questions Clearly structured and accessibly written it is an essential volume for all students embarking on the study of history

The Social Studies Curriculum E. Wayne Ross,2012-02-01 The third edition of The Social Studies Curriculum thoroughly updates the definitive overview of the primary issues teachers face when creating learning experiences for students in social studies By connecting the diverse elements of the social studies curriculum history education civic global and social issues the book offers a unique and critical perspective that separates it from other texts in the field This edition includes new work on race gender sexuality critical multiculturalism visual culture moral deliberation digital technologies teaching democracy and the future of social studies education In an era marked by efforts to standardize curriculum and teaching this book challenges the status quo by arguing that social studies curriculum and teaching should be about uncovering elements that are taken for granted in our everyday experiences and making them the target of inquiry

The Johns Hopkins University Studies in Historical and Political Science Johns Hopkins University,1882 **Studying History** Robert Vincent Daniels,1981 **A History of Our Own Times** Justin

McCarthy,1884 **Doing History** Mark Donnelly,Claire Norton,2020-11-16 Doing History bridges the gap between the way history is studied in school or as represented in the media and the way it is studied at university level History as an academic discipline has dramatically changed in recent decades and has been enhanced by ideas from other disciplines the influence of postmodernism and historians incorporation of their own reflections into their work Doing History presents the ideas and debates that shape how we do history today covering arguments about the nature of historical knowledge and the function of historical writing whether we can ever really know what happened in the past what sources historians depend on and the relative value of popular and academic histories This revised edition includes new chapters on public history and activist histories It looks at global representations of the past across the centuries and provides up to date suggestions for further reading presenting the reader with a thorough and current introduction to studying history at an academic level as well as a pathway to progress this study further Clearly structured and accessibly written it is an essential volume for all students embarking on the study of history

An International Approach to Developing Early Career Researchers Stephen Gorard,Nadia Siddiqui,2024-05-14 This edited volume illustrates the idea of a successful research capacity model critically

addressing preconceived notions of early career research projects impact and drawing together insights and implications around the encouragement of newer researchers to conduct useful robust studies with real world effect Centring on research undertaken at the UK Durham University Evidence Centre the volume features contributions from authors based at universities in the US China India and Pakistan The book discusses 15 substantial studies which explore themes such as children's wider outcomes in school disadvantage in education and the supply of professionals for the teaching workforce Novel in approach and highly interdisciplinary in nature the book showcases a broad range of experience and knowledge sharing from experienced researchers and policymakers to new academic staff current doctoral students and masters students conducting ambitious large scale projects thereby giving voice to those just starting out in their career Illustrating powerful studies that are feasible for students and beginners with limited or no resources this book will appeal to new researchers scholars and academics involved in the fields of educational research and research methods continuing professional development and education policy more broadly

Municipal Government and Land Tenure Herbert Baxter Adams, 1886 *The Pursuit of History* John Tosh, 2015-02-11 This classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history How do we know about the past Does an objective historical truth exist and can we ever access it In answering these central questions John Tosh argues that despite the impression of fragmentation created by postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins Consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them The sixth edition has been revised and updated with key new material including a brand

new chapter on public history sections on digitised sources and historical controversy discussion of topics including transnational history and the nature of the archive an expanded range of examples and case studies a comprehensive companion website providing valuable supporting material study questions and a bank of primary sources Lucid and engaging this edition retains all the user friendly features that have helped to make this book a favourite with both students and lecturers including marginal glosses illustrations and suggestions for further reading Along with its companion website this is an essential guide to the theory and practice of history

Library and Information Studies for Arctic Social Sciences and Humanities Spencer Acadia, Marthe Tolnes Fjellestad, 2020-11-26 Library and Information Studies for Arctic Social Sciences and Humanities serves as a key interdisciplinary title that links the social sciences and humanities with current issues trends and projects in library archival and information sciences within shared Arctic frameworks and geographies Including contributions from professionals and academics working across and on the Arctic the book presents recent research theoretical inquiry and applied professional endeavours at academic and public libraries as well as archives museums government institutions and other organisations Focusing on efforts that further Arctic knowledge and research papers present local regional and institutional case studies to conceptually and empirically describe real life research in which the authors are engaged Topics covered include the complexities of developing and managing multilingual resources working in geographically isolated areas curating combinations of local regional national and international content collections and understanding historical and contemporary colonial industrial influences in indigenous knowledge Library and Information Studies for Arctic Social Sciences and Humanities will be essential reading for academics researchers and students working the fields of library archival and information or data science as well as those working in the humanities and social sciences more generally It should also be of great interest to librarians archivists curators and information or data professionals around the globe
