Arab Orthodox Christians Under the Ottomans 1516-1831 Constantin Alexandrovich Panchenko, 2016-05-23 Following the so called Arab Spring the world's attention has been drawn to the presence of significant minority religious groups within the predominantly Islamic Middle East Of these minorities Christians are by far the largest comprising over 10% of the population in Syria and as much as 40% in Lebanon The largest single group of Christians are the Arabic speaking Orthodox This work fills a major lacuna in the scholarship of wider Christian history and more specifically that of lived religion within the Ottoman empire Beginning with a survey of the Christian community during the first nine hundred years of Muslim rule the author traces the evolution of Arab Orthodox Christian society from its roots in the Hellenistic culture of the Byzantine Empire to a distinctly Syro Palestinian identity There follows a detailed examination of this multi faceted community from the Ottoman conquest of Syria Palestine and Egypt in 1516 to the Egyptian invasion of Syria in 1831 The author draws on archaeological evidence and previously unpublished primary sources uncovered in Russian archives and Middle Eastern monastic libraries to present a vivid and compelling account of this vital but little known spiritual and political culture situating it within a complex network of relations reaching throughout the Mediterranean the Caucasus and Eastern Europe The work is made more accessible to a non specialist reader by the addition of a glossary whilst the scholar will benefit from a detailed bibliography of both primary and secondary sources A foreword has been contributed to this first English language edition by the Patriarch of Antioch John X It contextualizes the history found in this work within the ongoing struggle to preserve the ancient Christian cultures of the Arabic speaking peoples from extinction within their ancestral homeland

Walter Scott,1859 **The Monastery** Walter Scott,2016-08-22 It would be difficult to assign any good reason why the author of Ivanhoe after using in that work all the art he possessed to remove the personages action and manners of the tale to a distance from his own country should choose for the scene of his next attempt the celebrated ruins of Melrose in the immediate neighbourhood of his own residence But the reason or caprice which dictated his change of system has entirely escaped his recollection nor is it worth while to attempt recalling what must be a matter of very little consequence The general plan of the story was to conjoin two characters in that bustling and contentious age who thrown into situations which gave them different views on the subject of the Reformation should with the same sincerity and purity of intention dedicate themselves the one to the support of the sinking fabric of the Catholic Church the other to the establishment of the Reformed doctrines It was supposed that some interesting subjects for narrative might be derived from opposing two such enthusiasts to each other in the path of life and contrasting the real worth of both with their passions and prejudices The localities of Melrose suited well the scenery of the proposed story the ruins themselves form a splendid theatre for any tragic incident which might be brought forward joined to the vicinity of the fine river with all its tributary streams flowing through a country which has been the scene of so much fierce fighting and is rich with so many recollections of former times and lying almost under the immediate eye of the author by whom they were to be used in composition Text-Book of Church History.
