Wellsprings Frank Chapelle, 2005 Many people consider ground water deep beneath their feet as mysterious perhaps even supernatural To clarify matters hydrogeologist Frank Chapelle has written a definitive history and science of subsurface water in his *Wellsprings* a book both accessible to the lay reader while being filled with startling nuggets of information pleasing to the professional water scientist Donald Siegel professor of earth sciences Syracuse University This book tells the story of bottled water in the United States in a highly readable and in depth way covering both the facts of the subject and the persons and events that resulted in this now ubiquitous product Stephen C Edberg professor Yale University Bottled water is a part of everyday life for millions of Americans Per capita consumption in the United States now tops fifteen gallons per year with sales over 5 billion in 2002 Even as fuel prices climb many people are still willing to pay more for a gallon of bottled water than they are for the equivalent in gasoline At the same time bottled water has become a symbol of refined taste and a healthy lifestyle But despite its growing popularity many people cannot quite put their finger on just why they prefer bottled water to the much less expensive tap variety Some have a vague notion that bottled water is healthier some prefer the convenience and more consistent taste and others are simply content to follow the trend The fact is most people know very little about the natural beverage that they drink and enjoy It is reasonable to wonder therefore just what differentiates bottled water from other water Is it really better or healthier than tap water Why is it that different brands seem to have subtle variations in taste As Francis H Chapelle reveals in this delightful and informative volume a complex story of geology hydrology and history lies behind every bottle of spring water The book chronicles the history of the bottled water industry in America from its beginnings in Europe hundreds of years ago to the present day Subsequent chapters describe the chemical characteristics that make some waters desirable and provide an overview of the geologic circumstances that produce them *Wellsprings* explains how these geologic conditions vary throughout the country and how this affects the kinds and quality of bottled water that are available Finally Chapelle shows how the bottled water industry uses this natural history together with the perceived health benefits of spring waters to market their products Accessibly written and well illustrated *Wellsprings* is both a revealing account and a user's guide to natural spring waters Regardless of your drinking preference this timely exploration will make your next drink of water refreshingly informed *The Illustrated Guide to Collecting Bottles* Cecil Munsey, 1977-12 *Poland Spring* Poland Spring Preservation Society, Jason C. Libby, 2009-07-01 In 1794 Jabez Ricker traded his land in Alfred to the local Shaker community for property in present day Poland Shortly after his arrival travelers came looking for a place to stay and the Ricker family began its first inn In 1844 Hiram Ricker a grandson of Jabez discovered the curative powers of the mineral spring on the property and began to share the water with family and friends Within another half century sales of the water prompted the building of the Poland Spring

House a summer hotel that eventually had more than 500 rooms and the first golf course at a resort in the country the purchase of the Maine State Building from the 1893 World's Columbian Exposition in Chicago and many other ingenious and trend setting innovations Discovering Stained Glass in Detroit Nola Huse Tutag, Lucy Hamilton, 1987 The Detroit area boasts many fine examples of stained glass representing a variety of periods and styles The European stained glass collection at the Detroit Institute of Arts ranks amongst the most important in the United States Churches and synagogues contain panels from notable designers and studios and exquisite glass can also be found in many public and private buildings like the Detroit Public Library Cranbrook House the Guardian Building and the David Whitney Jr house Discovering Stained Glass in Detroit contains sixty examples of the area's stained glass treasures each stunningly presented in full color Author Nola Huse Tutag accompanies each illustration with an explanatory text Line drawings illustrate the buildings where the panels are located The windows represent works by designers such as Louis Comfort Tiffany Charles J Connick Frank Lloyd Wright Henry Matisse as well as those from European and American studios Colonial Homes and Their Furnishings Mary H.
