The Missing Sunrise:

Your Body: The Missing Manual Matthew MacDonald, 2009-07-21 What exactly do you know about your body Do you know how your immune system works Or what your pancreas does Or the myriad and often simple ways you can improve the way your body functions This full color visually rich guide answers these questions and more Matthew MacDonald noted author of Your Brain The Missing Manual takes you on a fascinating tour of your body from the outside in beginning with your skin and progressing to your vital organs You ll look at the quirks curiosities and shortcomings we ve all learned to live with and pick up just enough biology to understand how your body works You ll learn That you shed skin more frequently than snakes do Why the number of fat cells you have rarely changes no matter how much you diet or exercise they simply get bigger or smaller How you can measure and control fat That your hair is made from the same stuff as horses hooves That you use only a small amount of the oxygen you inhale Why blood pressure is a more important health measure than heart rate with four ways to lower dangerously high blood pressure Why our bodies crave foods that make us fat How to use heart rate to shape an optimal workout session one that s neither too easy nor too strenuous Why a tongue with just half a dozen taste buds can identify thousands of flavors Why bacteria in your gut outnumbers cells in your body and what function they serve Why we age and why we can t turn back the clock What happens to your body in the minutes after you die Rather than dumbed down self help or dense medical text Your Body The Missing Manual is entertaining and packed with information you can use It s a book that may well change your life Reader comments for Your Brain The Missing Manual also by author Matthew MacDonald Popular books on the brain are often minefields of attractive but inaccurate information This one manages to avoid most of the hype and easy faulty generalizations while providing easy to read and digest information about the brain It has useful tricks without the breathless hype of many popular books Elizabeth Zwicky The Usenix Magazine a unique guide that should be sought after by any who want to maximize what they can accomplish with their mental abilities and resources James A Cox The Midwest Book Review Wisconsin Bookwatch If you can t figure out how to use your brain after reading this guide you may want to return your brain for another The Sacramento Book Review Volume 1 Issue 2 Page 19 It s rare to find a book on any technical subject that is as well written and readable as Your Brain The Missing Manual The book covers pretty much anything you may want to know about your brain from what makes it up through how it develops to how to mitigate the affects of aging The book is easy reading fact packed and highlighted notes and practical applications So if you want to learn more about your brain how it works how to get the best out of it or just want to stave off the ravages of Alzheimers see chapter ten for details of how learning helps maintain your brain then I can t recommend this book highly enough Neil Davis Amazon co uk MacDonald s writing style is perfect for this kind of guide It remains educational without becoming overly technical or using unexplained jargon And even though the book covers a broad scope of topics MacDonald keeps it well organized and easy to follow The book captures your attention with fun facts and interesting studies that any

person could apply to their own understanding of human ability It has great descriptions of the brain and its interconnected parts as well as providing full color pictures and diagrams to offer a better explanation of what the author is talking about Janica Unruh [Blogcritics Magazine](#) **Photoshop CC: The Missing Manual** Lesa Snider,2014-08-14 Photoshop CC is an outstanding image editor but it can be pretty overwhelming This book makes learning Photoshop as easy as possible by explaining the hows and whys in a friendly conversational style You ll unlock Photoshop s secrets new goodies and time saving features with expert tips and practical editing advice you can use every day The important stuff you need to know Learn your way around Tour Photoshop s workspace and learn how to customize it Unleash the magic Use selections layers masks and smart objects to safely edit images automate common chores with actions Perfect your photos Learn to crop resize color correct retouch combine and prepare photos for print or online use Master color Drain change and add color and even create digital makeup partial color effects and duotones Be artistic Use filters effectively create illustrations paintings artistic typography animations and videos Go 3D Create and edit 3D objects and send them off to a 3D printing service from inside Photoshop Export web graphics Use Generator to instantly export and resize images just by using layer names
