O'Hallaron, 2001-09 The Mission Primer Four Steps to an Effective Mission Statement includes a Facilitator Training Packet CD and is a concise guidebook that teaches you how to develop evaluate and manage an effective mission statement for your organization It is intended for any group of people who are organized for any purpose No matter what type or size of organization you belong to The Mission Primer will show you how to develop an effective mission statement for your organization It works for industrial concerns non profits schools hospitals churches charities or government agencies from small three person sections to large departments to giant multinationals The book outlines a simple four step method for developing effective mission statements Our unique method is structured quantifiable and has a distinct beginning and end We have used it successfully with dozens of corporate university and non profit clients The method is based on a set of six laws what we call Gast s laws that describe the culture of a successful organization The central idea is that a mission statement describes how the organization intends to comply with Gast s laws Although we are sometimes met with initial skepticism from our clients it never lasts long Apparently Gast s laws are based on fundamental and enduring properties of human beings and thus they resonate strongly with the people who are exposed to them Gast s laws provide a direction and clarity that make the process of writing a mission statement focused time limited and rewarding If you are leading or participating in an effort to develop or evaluate a mission statement for your organization then you can benefit from the ideas in this book The Mission Primer Richard D.
