The Modern Supreme Court:

American Public Opinion and the Modern Supreme Court, 1930-2020 Thomas R. Marshall, 2022-04-29 The United States Supreme Court is commonly thought to be an institution far removed from American public opinion Yet nearly two thirds of modern Supreme Court decisions reflect popular attitudes Comparing over 500 Supreme Court decisions with timely nationwide poll questions since the mid 1930s Thomas R Marshall shows that most Supreme Court decisions agree with poll majorities or pluralities across time and across issues and often represent Americans views to the same degree as federal policymakers This book looks beyond the litigants economic interests social movements organized interest groups or units of governments typically involved and instead examines how well the Court or the justices represent Americans views Using nationwide public opinion broken down by key subgroups race gender education and party affiliation better describes exactly whom Supreme Court decisions and the justices individual votes best represent His book will be of interest to scholars in political science legal studies history and sociology

Decision Making by the Modern Supreme Court

Richard L. Pacelle, Jr, Brett W. Curry, Bryan W. Marshall, 2011-06-13 There are three general models of Supreme Court decision making the legal model the attitudinal model and the strategic model But each is somewhat incomplete This book advances an integrated model of Supreme Court decision making that incorporates variables from each of the three models In examining the modern Supreme Court since *Brown v Board of Education* the book argues that decisions are a function of the sincere preferences of the justices the nature of precedent and the development of the particular issue as well as separation of powers and the potential constraints posed by the president and Congress To test this model the authors examine all full signed civil liberties and economic cases decisions in the 1953-2000 period **Decision Making by the Modern Supreme Court** argues and the results confirm that judicial decision making is more nuanced than the attitudinal or legal models have argued in the past
