Some of My Best Friends A. Nolder Gay,1990 A Passionate Pilgrim David M. Robertson,2007-12-18 James A Pike the fifth bishop of the Episcopal Diocese of California was a man of many faces To some he was an iconoclast a man decades ahead of his time who modernized the Church and rendered it more progressive and open to inquiry To others he was a heretic who polarized and desecrated the Church Always controversial and charismatic he took America by storm in the 1960s with his best selling books and his weekly television talk show Dean Pike which won him a cover story in Time A Passionate Pilgrim is an illuminating biography of Pike and an examination of the tragedies triumphs and difficulties that shaped his spectacular rise to fame and his mysterious death in the Israeli desert **Psychokinesis** Stanley Krippner,1977-11 The history of humankind cannot be charted as a steady linear upward slope but rather as a series of quantum jumps of short duration separated by plateaus of varying duration during which no progress occurred During these periods of no progress the revolutionaries who produced the preceding quantum jump pass from the scene their principles and concepts become concretized as dogma and a new establishment is born whose sacred duty is the protection of the dogma against the new revolutionaries The last quantum jump was the scientific revolution of the nineteenth century which laid the groundwork for our present technological civilization and perhaps more important also shaped our philosophical view of what is a human being Since the basis of this scientific revolution was reason logic measurement and total reliance upon the organized senses the resultant view of the person is that of an automaton functioning in a clockwork world The power of this view is evident in the advances made in medical science up until the 1950s The twin triumphs of sanitation and preventive medicine and the development of the antibiotic concept completely revolutionized the practice of medicine and by 1950 those of us in the profession were anticipating a new golden age of medicine But in fact the reality has been disaster The mechanistic view of humanity has led to more and more technological applications of ever increasing complexity and cost and ever decreasing efficiency *The Living Church* ,1961 *The Disciple* ,1977
