*Events Tourism* Violet V. Cuffy, Fiona Bakas, Willem J. L. Coetzee, 2020-10-29 This book presents critical insights and contemporary perspectives for exploring current trends concerns and prospects of events tourism. It examines modern day global issues facing the events and tourism industry. Policymakers, researchers and academics to advance understanding of practice and development of theory. Organised in four parts, this book examines how events tourism is designed, planned and delivered. The first part engages with the core fundamental concepts of events tourism which establish a basic understanding of the field. The second part addresses contemporary issues related to visitor attractions, music festivals, small and user-generated events, wanderlust and entrepreneurship. The third part focuses on meetings and challenges in the conference industry after disasters, the economic impact and other dilemmas of mega events and city and destination concerns. The fourth and final part provides a peek into the future of events tourism vis-à-vis reshaping cities, music festivals and critical dilemmas of the 21st century. With an international appeal because of cross national contributions, this book will interest events and tourism practitioners, academics, students, researchers, policymakers and business and investment sector professionals across the globe.

**Enterprise and Special Events** Julie Oberding, 2016-11-25 During the past twenty years, the field of nonprofit management has grown significantly in terms of the number of nonprofit organizations, number of people employed and amount of funds raised. A key activity in nonprofit management has been organizing events which are generally defined as purposive gatherings of people. These purposes may include increasing awareness about the nonprofit organization and its mission, raising funds to support programs and services related to its mission, engaging and developing individuals as donors, volunteers and advocates, and enhancing the image of the organization and/or the broader community. Events in the modern era tend to be organized across the nonprofit, public and private sectors. While a nonprofit organization may create and manage an event, corporations and businesses often contribute financial support and technical expertise in areas such as branding, marketing and social media. Depending on the event type and size, a local government may provide the venue and public safety services including police, fire and ambulance. We can understand more about these mission driven, cross sectoral events by looking through the lens of social enterprise. Social enterprise has been defined as a venture that advances a social mission using business methods or market based approaches. It is typically conceptualized as spanning sectors, particularly the nonprofit and private sectors. *Social Enterprise and Special Events* focuses on how market based approaches can be used to help mission driven gatherings achieve their purposes as efficiently, effectively and sustainably as possible. These approaches include market research, brand development, cause marketing, gamification, liquidity, cash management and clustering. The book also incorporates concepts important in the nonprofit and public sectors such as collaborative governance, social capital, political capital, community development, placemaking and diversity.
