### Scientific Inquiry Cycle: Review

Science helps researchers solve problems by applying knowledge and creating testing often based on a test theory such as understanding or testing a hypothesis using evidence or ideas or hypotheses solutions can have a positive impact. Understanding the problem fully, including its causes and effects, is the first step in finding an effective solution.

Designing solutions requires considering various constraints, such as budget, time, and safety concerns. Documenting the part of a solution might face challenges, however, as it is important to weigh trade-offs carefully. For example, creating materials for a house that may affect its cost and ease of use, which influence the effectiveness of the solution.

After developing a solution, documenting how it works, what constraints affected it, and any compromises made helps others learn and possibly improve on the idea. Communication, sharing knowledge openly, and reflecting on the impacts of the innovation are essential steps. This process involves sharing knowledge, healthy challenges, responsible decision-making, and being communicative.

#### 6. Mark the best answer for each question.

1. What is the first important step when applying science to solve a local problem?
- Designing a solution immediately
  - Using the most expensive materials
  - Ignoring safety concerns
  - Understanding the problem fully

2. What does documenting constraints in a solution help with?
- Ignoring the problems of the solution
  - Documenting constraints like budget and safety
  - Showing how to solve the problem
  - Demonstrating that the solution has no flaws

3. Which is an example of a trade-off?
- Finding a solution without any constraints
  - Ignoring safety concerns
  - Time taken to solve the problem
  - Using unsafe materials

4. Why is it important to document a solution?
- To attract new users to the solution
  - To make others aware
  - To avoid the problem from occurring
  - To avoid documenting the solution

#### 6. Mark if the statement is True (T) or False (F).

When making a solution, it is important to consider the trade-offs between the benefits and the costs. Understanding the problem fully, including its causes and effects, is the first step in finding an effective solution.
