North American Odyssey Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers building on current scholarship in the field explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes, as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth and twentieth century planning, and environmental justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history. Contributions by Derek H. Alderman, Timothy G. Anderson, Kevin Blake, Christopher G. Boone, Geoffrey L. Buckley, Craig E. Colten, Michael P. Conzen, Lary M. Dilsaver, Mona Domosh, William E. American Odyssey Michel S. Laguerre, 1984 Caribbean immigrants have now become part of the social landscape of many American cities. Few studies, however, have treated in detail the process of their integration in American society. *American Odyssey* assesses the development and adaptation in both human and socio-economic terms of the Haitian immigrant community in three boroughs of New York City. An informed and well-rounded portrayal of a Caribbean community in New York, this book offers a fresh theoretical view of the structuring of urban ethnicity and provides the ethnographic background essential to understanding the problems of the Haitian population in the United States.
