**single neuron dynamics and computation sciencedirect** - May 09 2023

web apr 1 2014 the computation performed by single neurons can be defined as a mapping from afferent spike trains to the output spike train which is communicated to their postsynaptic targets this mapping is stochastic because of various sources of noise that include channel and synaptic noise and plastic because of various sources of

*single neuron computation worldcat org* - Jun 29 2022

web from the standpoint of artificial neural networks anns a single real neuron is as complex an operational unit as an entire ann and formalizing the complex computations performed by real neurons is essential to the design of enhanced processor elements for use in the next generation of anns

*canonical neurons and their computational organization* - Jul 31 2022

web jan 1 1992 this chapter discusses canonical neurons and their computational organization using neurons in the olfactory pathway as models for analysis several types of programs for neural modeling including astap ibm spice saber analogy genesis and neuron are used which have several advantages over being limited to
