**The Marshall plan in Austria - an analysis** Gisela Spreitzhofer, 2006-01-12 Seminar paper from the year 2006 in the subject History of Germany Postwar Period Cold War grade A Johns Hopkins University SAIS Bologna Center language English abstract The Austrian Republic which had been unable to survive economically in the aftermath of World War I recovered surprisingly quickly from the serious economic consequences of World War II In fact it became one of the world's wealthiest nations within a few years only achieving extraordinarily high growth rates and per capita income increases on an international scale The Marshall Plan's historical role for Austria is a topic that has been rather neglected by historians for several decades By writing this paper I would like to make a contribution to the memory of the Marshall Plan which was the biggest reconstruction aid project ever Perhaps no country benefited more from it than Austria Between 1948 and 1952 the United States supported Austria with goods worth approximately one billion dollars which cost each American tax payer 80 dollars Each Austrian received 133 dollars from the Plan more than any other of the sixteen participating Western European countries Apart from its economic effect the Marshall Plan also transported the American way of life to Western Europe and Austria I would like to start this paper by giving an overview of how Austria's economic situation was like immediately after the end of World War II The following chapter discusses the birth of the Marshall Plan first on the Western then on the Eastern side of the Atlantic Then I will focus chronologically on the stages of Austria's participation in the Plan before its impact on Austrian post war identity building will be explained A conclusion will finish the paper

*The Marshall Plan in Austria* Gunter Bischof, Anton Pelinka, Dieter Stiefel, 2018-12-20 Perhaps no country benefitted more from the Marshall Plan for assistance in reconstruction of Europe after World War II than Austria On a per capita basis each American taxpayer invested 80 per person in the Plan each Austrian received 133 from the European recovery program more than any other of the sixteen participating countries Without the Marshall Plan the Austrian economic miracle of the 1950s would have been unthinkable Despite this contemporary Austria seems to have forgotten this essential American contribution to its postwar reconstruction This volume in the Contemporary Austrian Studies series examines how the plan affected Austria and how it is perceived today The political context of the Marshall Plan in Austria is addressed in essays by Jill Lewis and Matthew Berg Dieter Stiefer describes the vast Soviet economic exploitation of their Austrian occupation zone Andrea Komlosy shows how the Marshall Plan helped complete the division of Europe Siegfried Beer suggests the secret involvement of the CIA in the Marshall Plan while Hans J3rgen Schröder analyzes the effectiveness of Marshall Plan propaganda programs in Germany and Austria The macroeconomic impact of Marshall Plan funds on Austrian economic policy is outlined by Hans Seidel Kurt Tweraser Georg Rigele and G3nter Bischof suggest the microeconomic importance of funds for the steel electricity and tourist sectors of the Austrian economy Wilhelm Kohler's sweeping analysis compares the American transfer of funds to postwar Europe with current debates about the cost of European Union enlargement The legacy of the Marshall Plan is

addressed by former Austrian Finance Minister Ferdinand Lacina Kurt Löffler and Hans Fubenegger summarize the activities of the Economic Recovery Program Fund Coming on the heels of the fiftieth anniversary of the Marshall Plan this compelling overview of the Plan and its impact will be important for historians those interested in international politics and Austrian scholars G3nter Bischof is professor of history and associate director of Center Austria at the University of New Orleans Anton Pelinka is professor of political science at the University of Innsbruck and director of the Institute of Conflict Research in Vienna Dieter Stiefel is professor of social and economic history at the University of Vienna and executive secretary of the Schumpeter Society in Vienna This volume offers a collection of articles mostly by contemporary Austrian born historians touching on various phases of the Marshall Plan administered through the European Recovery Program ERP and its successors counterfunds assistance to the present A splendid introduction followed by the key thirteen articles on the plan is augmented by several nontopical essays and book reviews along with a survey of Austrian politics in 1998 A number of articles emanated from a 1998 conference at the University of New Orleans Both novice and specialist will appreciate this book
