*Destined for Glory* Margaret Clarkson, 1987      **The Meaning of Suffering** Ralph Washington Sockman, 1961      **The Meaning of Suffering** Adrian Moulyn, 1982-11-24

Suffering is a fact of human existence In his interdisciplinary investigation of the causes types value and outcome of human suffering Adrian C Moulyn has discovered a purpose in it In *The Meaning of Suffering* Moulyn presents his thesis Suffering heals the blemishes and the fractures in our problem ridden existence in light of the binary nature of human temporo spacial structure Moulyn analyzes the source of suffering as a combination of the arbitrary nature of life itself no one actually chooses to be born and the dichotomy of the world as we see it objectively and the world as we want it subjectively While the melancholy of being thrown into the world lays the groundwork the discrepancy between desires and wants and the degree to which they are satisfied becomes a source of suffering The value of suffering is in its healing powers Suffering helps close the gap between what we desire and what we obtain The outcome of constructive suffering is an increased ability to deal with the inherent contradictions of life an enhanced awareness of the truly necessary and desirable and a stronger more secure conquest of happiness when it is achieved Moulyn s thesis is an intriguing and optimistic analysis of human experience and will be an asset to philosophy collections

*Meaning in Suffering* Daniel J. Louw, 2000 The basic assumption is that suffering as well as its association with evil causes an existential problem as expressed in the now classic question Why For what purpose Hence the attempt to take up the challenge put forth by theodicy and to develop a theological argument along the lines of a theology of the cross and a theology of the resurrection The book focuses on the following question in order to develop a theological model for pastoral care and counselling If it is true that God images are influenced by culture and do play a decisive role in people s reaction to severe suffering and pain how should God be interpreted and portrayed if Christian spirituality still is an influential factor in postmodernity s quest for meaning What God image is appropriate for a new millennium These questions are linked to the problem of a pastoral diagnosis A reinterpretation of the power of God God s omnipotence is proposed in terms of the following pastoral concepts compassion vulnerability and transformation empowerment The book has been compiled along the lines of the following basic pastoral questions posed by people who suffer due to events which befall us as a tragedy afflicting the innocent and the harmless Why God Cause and explanation How God Mode and identification Where God and what Polarization and the will of God When God Transformation and overcoming For what purpose Our human quest for meaning

For centuries scholars have been developing ways of studying the bible through exegesis historical critique literary critique form criticism and narrative analysis During the last half century new theoretical approaches have come to the fore Psychological Hermeneutics takes as its starting point the text itself and its context the dynamics of the human document created the person s who authored the text the original audience for which it was intended

the subsequent audiences to which it spoke and the factors that were at play behind in and in front of the text The contributions to this volume examine the growth of Psychological Hermeneutics as a discipline within biblical studies The book is structured in two parts The first assesses the approach taken by Wayne G Rollins one of the pioneers of this field The second provides applications of Rollins approach The result is a book which presents a state of the art survey of the discipline and development of Psychological Hermeneutics over the last thirty years
