The Mercator Atlas of Europe.

From the Collection Formed by the British Rail Pension Fund ,1966

Atlas of the world Sjoerd De Meer,2012

Gerard Mercator 1512 1594 was one of the most important cartographers of the 16th century His Atlas of the World is one of the highlights in the cartographic collection of the Maritime Museum Rotterdam It was assembled out of three copies of Mercator s famous Map of the World of 1569 In this map Mercator employed a new type of projection with increasing latitude towards the poles This so called Mercator projection marked the beginning of a new era in the evolution of navigation charts and is still widely used today Today only three copies of the world map and two fragments in the Mercator Atlas of Europe collection British Library have been preserved But only the copy of the Maritiem Museum Rotterdam has been carefully assembled probably by Mercator himself in the form of an atlas the Atlas of the World It contains remarkably large maps of oceans and continents and is therefore thought to be a prototype for a sea atlas that was never taken into production 0Translation of the Dutch edition 2009 978 90 5730 611 2
