The Middle Marches Harry Baker,1983-01-01 **Border Crossings** Richard Dobson,2020-05-05 When Richard Dobson toured the border county of Herefordshire in 2005 following in the footsteps of Victorian artist Henry Thornhill Timmins he recorded the experience in his subsequent book *In My Own Time* Join him in his latest tour as he describes in their words what earlier writers discovered as they travelled through the Welsh Marches even before the word tourism was first used

G. Pounds,1994 This original and pioneering book examines the role of the castle in the Norman conquest of England and in the subsequent administration of the country The castle is seen primarily as an instrument of peaceful administration which rarely had a garrison and was more often where the sheriff kept his files and employed his secretariat In most cases the military significance of the castle was minimal and only a very few ever saw military action For the first time the medieval castle in England is seen in a new light which will attract the general reader of history and archaeology as much as the specialist in economic and social history
