*The Mating Trade* Robert Mullan, 2023-08-24 Are marriages made in heaven In reality many people need a little help in the arrangement of such matters Originally published in 1984 the author's clear sighted look at the mating trade takes some of the mystique away from the subject and is the first serious and detailed account of the third party in marriage *The Mating Trade* Robert Mullan, 2022-02-23 Are marriages made in heaven In reality many people need a little help in the arrangement of such matters whether from Jewish shadkhans matchmakers go betweens computer or video dating agencies marriage bureaux Asian arranged marriages gay dating agencies or personal ads Originally published in 1984 the author's clear sighted look at the mating trade takes some of the mystique away from the subject and is the first serious and detailed account of the third party in marriage Dr Mullan looks at the singles scene and the arranged marriage historically and cross culturally and makes it clear that there is nothing necessarily odd or deviant about the mating trade It is a business like any other and as long as people continue to want perfect partners marriage permanent relationships dates and sex and while evolving social structures make such demands ever more difficult to meet the business will thrive It could even expand and grow but the author believes that first it will have to clean up its act *The Mating Trade* Bob Mullan, 1984-01-01 *The Mating Trade* John Godwin, 1973

**Mating Intelligence Unleashed** Glenn Geher, PhD, Scott Barry Kaufman, PhD, 2013-02-14 Until recently evolutionary psychologists have considered human mating behavior to be universal and similar to other animals painting a picture of human mating as visceral animalistic and instinctual But that's not the whole story In courtship and display sexual competition and rivalry we are guided by Mating Intelligence or the range of psychological abilities designed for sexual reproduction In this book psychologists Glenn Geher and Scott Barry Kaufman take a fascinating tour of the intersection of mating and intelligence by drawing on cutting edge research on evolutionary psychology intelligence creativity personality social psychology developmental psychology neuroscience epigenetics and more This book will change the way you think about sex dating love and the human mind *The Oölogist's Exchange*, 1888

*From Mating to Mentality* Kim Sterelny, Julie Fitness, 2004-03-01 Covering a range of topics from the evolution of language theory of mind and the mentality of apes through to psychological disorders human mating strategies and relationship processes this volume makes a timely and significant contribution to what is fast becoming one of the most prominent and fruitful approaches to understanding the nature and psychology of the human mind **Evolution's Empress** Maryanne L. Fisher, Justin R. Garcia, Rosemarie Sokol Chang, 2013-01-30 Over the last decade there has been increasing debate as to whether feminism and evolutionary psychology can co exist Such debates often conclude with a resounding no often on the grounds that the former is a political movement while the latter is a field of scientific inquiry In the midst of these debates there has been growing dissatisfaction within the field of evolutionary psychology about the way the discipline and others have repeatedly shown women to be in passive roles when it comes to survival and reproduction Evolutionary

behavioral research has made significant strides in the past few decades but continues to take for granted many theoretical assumption that are perhaps in light of the most recent evidence misguided As a result the research community has missed important areas of research and in some cases will likely come to inaccurate conclusions based on existing dogma rather than rigorous theoretically driven research Bias in the field of evolutionary psychology echoes the complaints against the political movement attached to academic feminisms This is an intellectual squabble where much is at stake including a fundamental understanding of the evolutionary significance of women s roles in culture mothering reproductive health and physiology mating female alliances female aggression and female intrasexual competition Evolution s Empress identifies women as active agents within the evolutionary process The chapters in this volume focus on topics as diverse as female social interactions mate competition and mating strategies motherhood women s health sex differences in communication and motivation sex discrimination and women in literature The volume editors bring together a diverse range of perspectives to demonstrate ways in which evolutionary approaches to human behavior have thus far been too limited By reconsidering the role of women in evolution this volume furthers the goal of generating dialogue between the realms of women s studies and evolutionary psychology
