The Mind Of Kierkegaard:

The Mind of Kierkegaard James Daniel Collins, 2014-07-14 This introductory overview of Kierkegaard's writings summarizes their central arguments and places them in their historical context. Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The mind of Kierkegaard James Collins, 1950 *The Life of the Mind (Renewed Minds)* Clifford Williams, 2002-03-01 What purpose do purely intellectual pursuits have in the lives of Christians? Why should Christians study subjects that have little bearing on their future careers and ministry? In a style reminiscent of the work of Arthur Holmes and Harry Blamires, veteran professor of philosophy, Clifford Williams addresses these issues and more in this succinct and accessible examination of the life of the mind. Christians cultivating the life of the mind actively pursue situations and discussions that require experimentation, reflection, and perseverance. They are interested in the acquisition of knowledge that is both unrelated and directly related to their faith. Williams answers common Christian objections to such activities, describes the virtues of the person who engages in the life of the mind, and asserts that the life of the mind is justifiably a Christian calling. *The Life of the Mind* is directed toward college students contemplating the importance of college and intellectual activity in general but it will be enjoyed by all committed to developing a Christian mind

The Mind of Kierkegaard James Collins, 1949 *Recesses of the Mind* Birna Bjarnadóttir, 2012-01-18 Birna Bjarnadóttir constructs a deep and comprehensive argument for Bergsson's significance as a master of narrative. Crossing centuries, oceans, and continents, her contextualization of Bergsson's aesthetics stretches from his native land's literary tradition to the cultural domains of Europe and North and South America. Her investigation of his ideas on beauty, love, and belief presented as a dialogue between Bergsson and numerous other writers and philosophers Plotinus, Augustine, Nietzsche, Kierkegaard, Blanchot is a striking reflection on some of the most important questions of modern times. *Recesses of the Mind* introduces a profound writer to the international stage. The book's exploration of the cultural periphery is equally significant, suggesting new interpretative strategies for considering cultural contributions from isolated places

The Mind of Kierkegaard John James Collins, 1965 *The Mind of Kierkegaard* James Charles Collins, 1954 *The Mind and Art of Charles Williams* Christopher Edward Fullman, 1954 **Kierkegaard's Existential Approach** Arne Grøn, René Rosfort, K. Brian Söderquist, 2017-04-24 Recently there has been a growing interest not only in existentialism but also in existential questions as well as key figures in existential thinking. Yet despite this renewed interest a systematic reconsideration of Kierkegaard's existential approach is missing. This anthology is the first in a series of three that will attempt to fill this lacuna. The 13

chapters of the first anthology deal with various aspects of Kierkegaard's existential approach. Its reception will be examined in the works of influential philosophers such as Heidegger, Gadamer, and Habermas, as well as in lesser known philosophers from the interwar period such as Jean Wahl, Lev Shestov, and Benjamin Fondane. Other chapters reconsider central notions such as anxiety, existence, imagination, and despair. Finally, some chapters deal with Kierkegaard's relevance for central issues in contemporary philosophy, including naturalism, self-constitution, and bioethics. This book is of relevance not only to researchers working in Kierkegaard Studies but to anyone with an interest in existentialism and existential thinking.

The Oxford Companion to the Mind Richard Langton Gregory, 1987. With over 900 entries ranging from brief definitions to substantial essays on major topics, this book takes the reader on a dazzling tour of an endlessly fascinating subject, spanning many disciplines within philosophy, psychology, and the physiology of the brain. 160 illustrations.

Kierkegaard's Presence in Contemporary American Life Lewis A. Lawson, 1970.

The Word of God and the Mind of Man Ronald H. Nash, 1992. The last two centuries of Christian theology are the record of an evolving attack on the role of knowledge in the Christian faith. The purpose of this book is to challenge the major forms of Christian agnosticism and offer an alternative theory that makes human knowledge about God possible. In other words, is there a relationship between the human mind and the divine mind that is sufficient to ground the communication of truth from God to humans?

Pre-reflective Consciousness Sofia Miguens, Gerhard Preyer, Clara Morando, 2015-10-16.

Pre-reflective Consciousness Sartre and Contemporary Philosophy of Mind delves into the relationship between the current analytical debates on consciousness and the debates that took place within continental philosophy in the twentieth century and in particular around the time of Sartre and within his seminal works. Examining the return of the problem of subjectivity in philosophy of mind and the idea that phenomenal consciousness could not be reduced to functional or cognitive properties, this volume includes twenty two unique contributions from leading scholars in the field. Asking questions such as Why we should think that self-consciousness is non-reflective, Is subjectivity first personal, Does consciousness necessitate self-awareness, Do we need pre-reflective self-consciousness, Are ego disorders in psychosis a dysfunction of pre-reflective self-awareness, How does the Cartesian duality between body and mind fit into Sartre's conceptions of consciousness?

Adventures of the Mind, 1961.

Lives of the Mind Roger Kimball, 2002-09-06. This book provides a sharply observed tour of Western intellectual and artistic aspiration.
