Sommerfeldt, 2004 A study of the many faceted complex yet consistent thought of the most influential thinker of the first half of the twelfth century whose thought influenced all medieval thinkers including Luther and Calvin **The Mind of Saint-Bernard of Clairvaux** G.R. Evans, 1983 Francis of Assisi as Artist of the Spiritual Life Andrew T. McCarthy, 2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant s world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination *Butler's Lives of the Saints: August* Alban Butler, Paul Burns, 1998-01-01 For more than two centuries Butler s has been one of the best known most widely consulted hagiographies In its brief and authoritative entries readers can find a wealth of knowledge on the lives and deeds of the saints as well as their ecclesiastical and historical importance since canonization **A History of Preaching Volume 1** O.C. Edwards, Jr., 2010-09-01 A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church s ministry of proclamation Bringing together an impressive array of familiar and lesser known figures Edwards paints a detailed compelling picture of what it has meant to preach the gospel Pastors scholars and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching Volume 1 appearing in the print edition contains Edwards s magisterial retelling of the story of Christian preaching s development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century s discontent with outdated forms and emphasis on new modes of preaching such as narrative Along the way the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time Origen Chrysostom Augustine Bernard Aquinas Luther Calvin Wesley Edwards Rauschenbusch Barth all of their distinctive contributions receive careful attention Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to

Medieval Philosophy Peter Adamson, 2019-09-26 Peter Adamson presents a lively introduction to six hundred years of European philosophy from the beginning of the ninth century to the end of the fourteenth century The medieval period is one of the richest in the history of philosophy yet one of the least widely known Adamson introduces us to some of the greatest thinkers of the Western intellectual tradition including Peter Abelard Anselm of Canterbury Thomas Aquinas John Duns Scotus William of Ockham

and Roger Bacon And the medieval period was notable for the emergence of great women thinkers including Hildegard of Bingen Marguerite Porete and Julian of Norwich Original ideas and arguments were developed in every branch of philosophy during this period not just philosophy of religion and theology but metaphysics philosophy of logic and language moral and political theory psychology and the foundations of mathematics and natural science *Holy Power, Holy Presence* Elizabeth Dreyer,2007 Western theology is frequently criticized for not having a fully developed pneumatology According to these critics preoccupation with Christology and an excessive focus on the nature and unity of God have come at the expense of a full theology of the three persons While admitting that there is some truth to these criticisms Elizabeth Dreyer maintains that those who level them base their conclusions on a narrow range of texts and thus fail to establish a true neglect of the Holy Spirit Medieval authors offer a wealth of creative language and insight that speaks to the role of the Holy Spirit in contemporary spirituality and contributes to a renewed pneumatology for the twenty first century Book jacket
