

A man with long, light-colored hair and a beard stands on a rocky cliff, looking out over a vast, colorful landscape. The sky is filled with bright, glowing light rays and a large, circular light source on the left. In the foreground, a sword is stuck in the ground, its hilt pointing towards the left and its blade pointing towards the right. The text is overlaid on the right side of the image.

**The Academy**, 1871 *Granting the Seasons* Nathan Sivin, 2008-12-19 China's most sophisticated system of computational astronomy was created for a Mongol emperor who could neither read nor write Chinese to celebrate victory over China after forty years of devastating war This book explains how and why and reconstructs the observatory and the science that made it possible For two thousand years a fundamental ritual of government was the emperor's granting the seasons to his people at the New Year by issuing an almanac containing an accurate lunisolar calendar The high point of this tradition was the Season granting system Shou shih li 1280 Its treatise records detailed instructions for computing eclipses of the sun and moon and motions of the planets based on a rich archive of observations some ancient and some new Sivin the West's leading scholar of the Chinese sciences not only recreates the project's cultural political bureaucratic and personal dimensions but translates the extensive treatise and explains every procedure in minimally technical language The book

contains many tables illustrations and aids to reference It is clearly written for anyone who wants to understand the fundamental role of science in Chinese history There is no comparable study of state science in any other early civilization
