Annual Review of the Sociology of Religion. Volume 9 (2018) Solange Lefebvre,Alfonso Pérèz-Agote Poveda,2018-09-11 Catholicism is generally over institutionalized and over centralized in comparison to other religions However it finds itself in an increasingly interrelated and globalized world and is therefore immersed in a great plurality of social realities The Changing Faces of Catholicism assembles an international cast of contributors to explore the consequent decline of powerful Catholic organisations as well as to address the responses and resistance efforts that specific countries have taken to counteract the

secularization crisis in both Europe and the Americas It reveals some of the strategies of the Catholic Church as a whole and of the Vatican centre in particular to address problems of the global era through the dissemination of spiritually progressive writing World Youth Days and the transformation of Catholic education to become a forum for intercultural and interreligious dialogue The volume also reflects on the adaptation of Catholic institutions and missions as sponsored by religious

communities and monastic orders **Catholics in Interreligious Dialogue** Anthony O'Mahony,Peter Bowe,2006 This volume brings together a wide ranging and engaging series of studies that witness to the depth of theological reflection that the contemporary Christian monastic and scholarly community are engaged in as the religious traditions seek to understand and relate to each other in a global context Catholic

Religion Matters: Volume 2 P. T. Babie,Rick Sarre,2024-07-19

This book constitutes the second volume of Religion Matters The Contemporary Relevance of Religion Springer 2020 Offering a fresh and much needed perspective it explores the role of religion in the modern neo liberal world The book acclaims that religion is a contextual and contested term which is extensively discussed in the Introduction Designed to be read selectively this book allows readers to delve into topics and traditions of specific interest without the necessity of reading the entire volume In contrast to volume 1 where contributors critically engaged with religion and various disciplines this book poses a fundamental question Can religion contribute to the discipline under consideration Authors were selected based on their ability to address this question Some chapters concluded that religion may offer very little to the discipline under consideration highlighting the value of volume 1 s critical stance on the place of religion in contemporary society However the project s overall aim remained somewhat unfulfilled leading to the creation of this second volume The primary omission from the first book was a comprehensive exploration of the sciences and health sciences which this second volume aims to rectify Furthermore additional authors were chosen to investigate the nature of connectedness facilitated by religion horizontally through membership within wider communities societies cultures or religious traditions and vertically by examining historical relationships within a particular faith tradition culture community or society This volume also broadens its focus to include non Christian perspectives Indigenous perspectives and an increased representation of female contributors
