Scott Momaday, Luci Tapahonso, James Welch, Robert Jr Willard, 1993 *The Routledge Companion to Indigenous Art Histories in the United States and Canada* Heather Igloliorte, Carla Taunton, 2022-12-30 This companion consists of chapters that focus on and bring forward critical theories and productive methodologies for Indigenous art history in North America This book makes a major and original contribution to the fields of Indigenous visual arts professional curatorial practice graduate level curriculum development and academic research The contributors expand create establish and define Indigenous theoretical and methodological approaches for the production discussion and writing of Indigenous art histories Bringing together scholars curators and artists from across the intersecting fields of Indigenous art history critical museology cultural studies and curatorial practice the companion promotes the study and dissemination of Indigenous art and stimulates new conversations on such key areas as visual sovereignty and self determination resurgence and resilience land based embodied and nation specific knowledges epistemologies and ontologies curatorial and museological methodologies language decolonization and Indigenization and collaboration consultation and mentorship *Trading Gazes* Susan Bernardin, 2003 The story of westering Americans in the

late nineteenth and early twentieth centuries has been told most notably through photographs of American Indians. Unlike this vast archive produced primarily by male photographers which depicted American Indians as either vanishing or domesticated, the lesser known images by the women featured in *Trading Gazes* provide new ways of seeing the intersecting histories of colonial expansion and indigenous resistance. Four unconventional women: Jane Gay who documented land allotment to the Nez Percés; Kate Cory, an artist who lived for years in a Hopi community; Grace Nicholson who purchased cultural items from the Karuk and other northern California tribes; and Mary Schaffer who traveled among the Stoney and Métis of Alberta, Canada, used cameras to document their cross-cultural encounters. *Trading Gazes* reconstructs the rich biographical and historical contexts explaining these women's presence in different Native communities of the North American West. Their photographs not only record the unprecedented opportunities available for Euro-American women eager to shed gender restrictions but also reveal how women's newfound mobility depended on the increasing restrictions placed on Native Americans in this era. By tracing the complex, often unexpected relationships forged between these women, their cameras, and the Native subjects of their photographs, *Trading Gazes* offers a new focus for recovering women's histories in the West while bringing attention to the complicated legacies of these images for Native and non-Native viewers.

Through a Native Lens Nicole Strathman, 2020-03-19 What is American Indian photography? At the turn of the twentieth century, Edward Curtis began creating romantic images of American Indians, and his works along with pictures by other non-Native photographers came to define the field. Yet beginning in the second half of the nineteenth century, American Indians themselves started using cameras to record their daily activities and to memorialize tribal members. *Through a Native Lens* offers a refreshing new perspective by highlighting the active contributions of North American Indians both as patrons who commissioned portraits and as photographers who created collections. In this richly illustrated volume, Nicole Dawn Strathman explores how indigenous peoples throughout the United States and Canada appropriated the art of photography and integrated it into their lifeways. The photographs she analyzes date to the first one hundred years of the medium, between 1840 and 1940. To account for Native activity both in front of and behind the camera, the author divides her survey into two parts. Part I focuses on Native participants, including such public figures as Sarah Winnemucca and Red Cloud, who fashioned themselves in deliberate ways for their portraits. Part II examines Native professional, semiprofessional, and amateur photographers. Drawing from tribal and state archives, libraries, museums, and individual collections, *Through a Native Lens* features photographs including some never before published that range from formal portraits to casual snapshots. The images represent multiple tribal communities across Native North America, including the Inland Tlingit, Northern Paiute, and Kiowa. Moving beyond studies of Native Americans as photographic subjects, this groundbreaking book demonstrates how indigenous peoples took control of their own images and distinguished themselves as pioneers of photography. Strong Hearts, 1995 In *Strong Hearts*, popular visions of American Indians are challenged by artists and writers for whom self

representation is often as much a political as an artistic statement For example the darkly emotional scenes staged by Carm Little Turtle Larry McNeil s metaphorical images of eagle feathers Zig Jackson s satirical pictures of tourists photographing Indians Maggie Steber s intimate portrayal of the Wildcat family images of joy and pain captured by the children in the Shooting Back from the Reservation project and Jeffrey Thomas s close up portraits of traditional powwow dancers Three distinguished authors write about the struggle to overcome stereotyped perceptions of Native Americans Paul Chaat Smith cultural critic and writer compares the nineteenth century arms race that nearly wiped out his Comanche ancestors to the way in which the camera has been used to form unyielding perceptions of Native people Theresa Harlan curator at the C N Gorman Museum tells how constructed mythologies about Native people threaten not only their cultures but their very survival Photographer and educator Jolene Rickard regards contemporary Native image making as documents of our sovereignty both politically and spiritually In their essays all three show how the photographers in Strong Hearts use the camera to represent Native American people today One hundred twenty five images by thirty four Native American photographers are complemented by poetry that echoes ancient story telling traditions
