Anozie, 2016-08-19 In this pioneering work first published in 1981 Sunday O Anozie examines the relevance of structuralism and semiology to literary criticism in general and to African poetics in particular Behind the growing body of African literature lies an immense reservoir of oral tradition for which the proper tools of analysis and interpretation have yet to be found This book represents the first comprehensive full scale exposition analysis and critique of structuralism by a non Western and non European scholar From an African viewpoint it examines the roles to be played by structuralism and post structuralism in the development of the general principles governing poetics and literary creativity in Africa This title will be of interest to students of literature and literary theory

**Social Network Analysis** Stanley Wasserman, Katherine Faust, 1994-11-25 Social network analysis is used widely in the social and behavioral sciences as well as in economics marketing and industrial engineering The social network perspective focuses on relationships among social entities and is an important addition to standard social and behavioral research which is primarily concerned with attributes of the social units Social Network Analysis Methods and Applications reviews and discusses methods for the analysis of social networks with a focus on applications of these methods to many substantive examples It is a reference book that can be used by those who want a comprehensive review of network methods or by researchers who have gathered network data and want to find the most appropriate method by which to analyze it It is also intended for use as a textbook as it is the first book to provide comprehensive coverage of the methodology and applications of the field

**The Rebirth of Anthropological Theory** Stanley R. Barrett, 1984-01-01 Innovative and often controversial Barrett s study ranges over the entire scope of anthropological theory It provides a fresh interpretation of the history of theory and mounts an alternative perspective built around dialectics that is eminently suitable to post colonial anthropology He argues that anthropological theory has failed to be cumulative It has been characterized by oscillation and repetition theoretical orientations have appeared and disappeared only to be discovered once again Addressing numerous conceptual contradictions which have never been resolved he introduces novel concepts such as salvage theory and backward theory and argues that in many respects anthropological theory resembles the structuralists interpretation of myth Social life he asserts is inherently contradictory although concealed by numerous mechanisms most of which reinforce the status quo

Attacking the illusion of simplicity which has dominated positivistic approaches and the out dated identification of anthropology with non Western primitive and tribal societies Barrett contends that power and privilege everywhere should be the basic concerns of anthropological inquiry      **Anthropology in Theory** Henrietta L.
