**Structural Social Work** Robert P. Mullaly, 1997 This new edition has been substantially rewritten and includes new sections on globalized capitalism and modernism and postmodernism and a new chapter on oppression as the source of social problems and the focus of structural social work *The New Structural Social Work* Bob Mullaly, Marilyn Dupré, 2018-09-13 An up to date and thorough investigation of progressive social work theory This fully updated edition explores the shortcomings of welfare capitalism and reveals how conventional social work fails to respond to systemic social problems By presenting a coherent theory of progressive social work with oppression as its focus this text shows how students can incorporate a radical alternative to conventional social work within their own practice *International Community Development Practice* Charlie McConnell, Daniel Muia, Anna Clarke, 2021-11-25 International Community Development Practice provides readers with practice based examples of good community development demonstrating its value for strengthening people power and improving the effectiveness of development agencies whether these be governmental non governmental or private sector The chapters focus upon the making of the community development profession and the eight core competences required of the professional practitioner as outlined by the International Association for Community Development IACD whatever their job title or host agency in order to be able to undertake community development These are concerned with the ability of the practitioner to Put ethics and values into practice Engage with communities Ensure participatory planning Organize for change Support learning for change Promote diversity and inclusion Build leadership and infrastructure Develop and improve policy and practice From a policy perspective the book will reassert the role of community development approaches as related to a wide variety of global challenges including poverty amelioration climate change human rights peace building and social environmental political and economic development From a practice perspective the book will reassert the importance of high levels of professional competence building upon decades of experience in the field around the world by development practitioners working in community work social work health adult education environmental protection local economic development urban design cultural work and other disciplines concerned to support effective community development *HUMANISTIC SOCIAL WORK - The THIRD WAY / FORCE in Theory, Practice and Politics. Core Qualities, Skills and Conducts of the Practitioner*, 2023-11-10 This book is a new appearance of the author Petru Stefanoi within The HUMANISTIC SOCIAL WORK Project In particular in this work the author affirms and supports the thesis according to which as in psychology and psychotherapy the idea thesis and formula Humanistic Psychology Psychotherapy as the Third Way or Force is regularly promoted and used it is the case and the time as in the field of social work to operate with the formula Humanistic Social Work The Third Way or Force in Social Work The third way in practice as a method and the third force in theory as a doctrine If in psychology and psychotherapy the third way force was established by reference to psychoanalysis and behaviorism in social work the third way is established by reference to

Traditional social work and Critical social work This third way in social work is imposed in the author's opinion by prioritizing the concept of personality bringing this doctrine method and practice of social work closer to psychology and psychotherapy to humanistic psychology and psychotherapy But the author specifies in the paper that humanistic psychology and humanistic psychotherapy on the one hand and humanistic social work as theory and practice on the other hand are distinct scientific and practical fields not only by the object of intervention but also by methodology and specifics of practice The aspect is well highlighted in the way it is structured and formulated his The HUMANISTIC SOCIAL WORK Project established as an initiative with the assumed aim to enhance the effective presence of the humanistic and personalistic values theories and practices in social work which usually are stated as fundamental and essential in different programs strategies and policies but less present in fact in the specialized literature in the faculties curricula or in the practice of the professionals and services To this end the project is designed as a philosophical theoretical axiological and methodological framework a heuristic laboratory a philosophical scientific and professional forum where it can be set what might be called the theory axiology and methodology of humanistic social work The project's concept starts from the idea that humanistic social work is not however a distinctive form of social work welfare but rather an ontology epistemology that generates a reaffirmation restatement of the fundamental constitutional humanistic values of social work incorporating in the same time in a relative new coherent and unitary theory all what penetrated in social work in the last decades from humanistic psychology and psychotherapy microsociology and humanistic sociology human rights philosophy movement and especially what was established as humanistic method in the contemporary social work practice and literature The core aspect of the humanistic social work paradigm theory and practice is determined by the way mode humanistic are represented the client and professional considering the humane qualities resources of the client and professional the critical epistemological and methodological value of the this type of social work One can say that the specific theory of humanistic social work is a conglomerate of theories paradigms orientations but which have some crucial ideas as vectors the person client as personality as human being with sentiments soul desires sufferings needs of love needs of happiness and accomplishments emphasis on personality and compathetical micro community as basic resources of practice positive optimistic and appreciative expectation in practice person centered and microcommunity centered approach in evaluation and intervention concentration on the future and not on the past the human rights social justice a humanistic perspective on the practitioner and his conducts in practice

*The SAGE Handbook of Social Work Research* Ian Shaw, Katharine Briar-Lawson, Joan Orme, Roy Ruckdeschel, 2009-11-27 This is an ambitious book It aims at nothing less than a comprehensive account of the state of the art of social work research internationally and an intellectually original statement that will help to define and shape social work research Those with a serious interest in social work research will agree that this is a major undertaking and one that should put social work research on the map Ian Sinclair University of York UK This terrific Handbook provides

an essential map for navigating the complex currents of social work research today It resists polemical and simplistic binaries to chart a course that emphasizes diversity pluralism and sensitivity to political contexts in many featured exemplars As key chapters note inherent tensions at the heart of social work itself are mirrored in current debates about the purposes and methods of social work research Rather than patch over differences the volume invites us to understand historical roots of unresolvable tensions and live with them The international scope of the volume is unique scholars from more than a dozen different countries were involved and its broad scope counters the tendency toward parochialism of much North American literature The Handbook should be essential reading for students and academics Catherine Riessman Boston University USA

The SAGE Handbook of Social Work Research provides a comprehensive internationally focused account of leading social work research offering an original and defining statement on contemporary theory and practice within the field The groundbreaking Handbook engages critically with the nature and role of social work research and evaluation in contemporary societies around the globe and asks four key questions What is the role and purpose of social work research What contexts shape the practice and purpose of social work research How can we maximise the quality of the practice of social work research How can the aims of social work in its varied domains be met through social work research Ranging over local national and international issues and exploring questions of theory and practice this is a diverse and constructively organized overview of the field It will quickly be recognized as a benchmark in the expanding field of social work research setting the agenda for future work in the arena

**Greening Social Work Education** Susan Hillock, 2024-03-01 Despite urgent calls for global action sustainable social work practice and a solid green theoretical knowledge base North American social work and helping professions have been slow to learn from community activists acknowledge the international climate emergency and act collectively to achieve climate justice Greening Social Work Education examines how social work educators can best incorporate sustainability content into social work curricula integrate green teaching methods and mobilize students and colleagues towards climate action justice and leadership Drawing on Canadian content this collection highlights Indigenous eco feminist collective action and multi interdisciplinary approaches to social work The book provides a rationale for why the topic of greening is important for social work and the helping professions discussion of current debates tensions and issues useful ideas related to innovative interdisciplinary theoretical approaches analyses and constructs and practical recommendations for teaching green social work education In doing so Greening Social Work Education strives to help social workers and educators gain the confidence and tools they need to transform their teaching and curricula

*Structural Social Work* Robert P. Mullaly, 1997 This new edition has been substantially rewritten and includes new sections on globalized capitalism and modernism and postmodernism and a new chapter on oppression as the source of social problems and the focus of structural social work

**Social Work Treatment** Francis J. Turner, 2017-03-23 First published in 1974 Social Work Treatment remains the most popular and trusted compendium of theories available to social work

students and practitioners It explores the full range of theoretical approaches that drive social work treatment and knowledge development from psychoanalysis to crisis intervention A treasure trove of practice knowledge the text equips professionals with a broad array of theoretical approaches each of which shine a spotlight on a different aspect of the human condition Emphasizing the importance of a broad based theoretical approach to practice it helps readers avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts This sweeping overview of the field untangles the increasingly complex problems ideologies and value sets that define contemporary social work practice The result is an essential A to Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty The New Structural Social Work / Document Guide for the Social Sciences Pack Bob Mullaly, Robert P. Mullaly, 2009-11-06 The need for an alternative to conventional social work is more obvious today than ever before Given its acceptance of our present social order and its emphasis on reform of the individual and limited social reform conventional social work appears powerless to deal with the increasing social problems that have already overloaded a diminishing welfare state By continuing to recycle mainstream theories of social work practice that do nothing to change the present order conventional social work actually contributes to the ideological hegemony of patriarchy classism racism and other oppressive thought structures The New Structural Social Work reveals the shortcoming of welfare capitalism as a social system and shows how conventional social work has failed to respond to systemic social problems Mullaly presents a coherent and consistent theory of progressive social work with oppression as its central focus and examines elements of its political practice It is shown how this practice is carried out within the social agency outside the agency and within the personal lives of structural social workers This third edition has been extensively revised and updated and includes DT an expanded discussion of the political paradigms that influence social work in Canada a new chapter on feminist antiracist and postmodernist critiques of the neo conservative liberal social democratic and Marxist paradigms that dominated the nineteenth and twentieth centuries DTa new chapter that assesses the influence of the Third Way and the role that social work plays in Third Way jurisdictions such as the UK DT improved pedagogical aids to make this book more accessible to the mid level university market Package Contains 9780195419061 New Structural Social Work 9780195433586 Documentation Guide for the Social Sciences *Professional Ideologies and Preferences in Social Work* Idit Weiss, John Gal, John C. Dixon, 2003-12-30 Weiss Gal Dixon and their contributors provide the first large scale cross national and cross cultural examination of the views and the perceptions of social workers through this analysis of graduating social worker students on the threshold of their careers in social work They identify and analyze the graduating social work students attitudes towards the sources of social distress the preferred ways to deal with social problems the goals of social work and their professional preferences with regard to client groups types of professional activity and place of work Since first being practiced more than a century ago social work has become an international profession and is today an integral part of the

social services in many different countries However as Weiss Gal Dixon and their contributors make clear there is a distinct lack of ideological consensus over the goals tasks desired technologies major client groups the preferred sector in which to operate and a variety of other issues Throughout its history social work has undergone a constant process of change nonetheless despite the existence of a common professional core social work is quite clearly socially constructed and takes very different forms in the various national settings throughout the world This book provides the first large scale cross national and cross cultural examination of the views and perceptions of social workers through an analysis of graduating social worker students at the threshold of their careers in social work The country chapters identify and analyze the graduating social work students attitudes towards the sources of social distress the preferred ways to deal with social problems the goals of social work and their professional preferences with regard to client groups types of professional activity and place of work Experts on social work provide analyses on Australia Brazil Canada Germany Hong Kong Hungary Israel the United Kingdom the United States and Zimbabwe Modern Social Work Theory Malcolm Payne,1997
