Albert,2012-02-14 Although group conflict is hardly new the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups It is estimated that two thirds of violent conflicts being fought each year in every part of the globe including North America are ethnic conflicts Unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post Cold War world Although these conflicts also have political economic and other causes the purpose of this volume is to develop a psychological understanding of ethnic warfare More specifically Handbook of Ethnopolitical Conflict explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide      *Written in Blood* Stephen Worche,1998-08-15

Trueba,1998 The relationship between ethnic identity and power has important consequences in a modern world that is changing rapidly through global immigration trends Studies of ethnic racial conflict of ethnic identity and power become necessarily studies of political power social status school achievement and allocation of resources The recognition of power by an ethnic group however creates a competition for control and a rivalry for power over public arenas such as schools In this context this book provides interesting and important insights into the dilemmas faced by immigrants and members of ethnic groups by school personnel and by policy makers The first part of the book consists of comparative studies of ethnic identity The second part focuses directly on some of the lessons learned from social science research on ethnic identification and the critical study of equity

with its implications for pedagogy An interdisciplinary group of scholars offers profoundly honest and stimulating accounts of their struggles to decipher self identification processes in various political contexts as well as their personal reflections on the study of ethnicity A powerful message emerges that invites reflection about self identification processes and that allows a deeper understanding of the empowering consequences of a clear and strong personal cultural ethnic and social identity
