## **Struggle For The Balkans:**

Struggle for the Balkans Svetozar Vukmanović-Tempo, 1990      **Conflict Areas in the Balkans** Pinar Yürür, Arda Özkan, 2020-10-27 The situation in the Balkans such as the solution to the status of Kosovo is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern Western relations On the other hand a successful solution to the problem in the Balkans could serve as a model for solving the Muslim Christian tensions elsewhere in the world It is the intention of this book to contribute proposals for solutions to the problems of Balkans The starting principle for the solutions to be effective is that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union      **The Fight Against**

**Terrorism and Crisis Management in the Western Balkans** Iztok Prezelj, 2008 Proceedings of the NATO Advanced Research Workshop on Crisis Management and Counter Terrorism in the Western Balkans Ljubljana Slovenia 20 21 April 2007 T p verso      *The Struggle for the Balkans* John Charles De Wilde, 1939      **EU Conflict Management** James Hughes, 2013-09-13 The EU s self promotion as a conflict manager is embedded in a discourse about its shared values and their foundation in a connection between security development and democracy This book provides a collection of essays based on the latest cutting edge research into the EU s active engagement in conflict management It maps the evolution of EU policy and strategic thinking about its role and the development of its institutional capacity to manage conflicts Case studies of EU conflict management within the Union in its neighbourhood and further afield explore the consistency coherence and politicization of EU strategy at the implementation stage The essays examine the extent to which the EU can exert influence on conflict dynamics and outcomes Such influence depends on a number of changing factors how the EU conceptualizes conflict and policy solutions the balance of interests within the EU on the issue divided or concerted and the degree of politicization in the EU s role the scope for an external EU role and the value attached by the conflict parties to EU engagement a value that is almost wholly bound to their interest in a membership perspective or other strong relationship to the EU rather than to shared values as an end in themselves This book was based on a special issue of *Ethnopolitics*

Conflict and Peace in Eurasia Debidatta Aurobinda Mahapatra, 2012 Focusing on a range of Eurasian conflicts including Nagorno Karabakh South Ossetia and Abkhazia this book offers contemporary perspectives on the ongoing conflicts in the Eurasia with an emphasis on the attempts towards peace The book brings into focus how various factors such as ethnicity religion border disputes resources and animosities inherited from the past play crucial role in these conflicts It questions whether developments in Eurasia affect other conflicts across the globe and if differences between parties can be resolved

without pulling the relations beyond adjustable limits The book goes on to look at how tricky the path to peace would be and furthers the development of a framework of study of Eurasian conflicts in the post Soviet world while taking into account both internal and external variables in analyzing these conflicts It is a useful contribution to Central Asian and Caucasian Politics and Security Studies

**Conflict Resolution and Global Justice** Nikola Tomić, Ben Tonra, 2021-07-09 This book examines how the different normative foundations of conflict resolution held by various global actors their understandings of justice and the differences between types of conflict influence the varying means by which conflicts can be prevented managed and ultimately resolved By combining insights from political theory conflict studies and European Union EU foreign policy studies the book identifies the EU as the key case of a conflict manager that is both a product and a defender of a global liberal order It focuses on three aspects of conflict resolution that pose their own sets of both normative and empirical dilemmas resolving border disputes strengthening the resilience of weak or divided states and societies after regime change and intervention in humanitarian crises Furthermore it offers a comparative analysis between a potentially distinctive European approach and that of other global actors and reflects critically on situations where policy practice may not always reflect a concern for justice asking what countervailing forces prevail and why This book will be of key interest to scholars and students in European and EU Studies Area studies Conflict Resolution War Studies EU Foreign Policy Political Theory International relations as well as policymakers
