## Struggling For Recognition:

**Action and Interaction** Shaun Gallagher, 2020-04-09 Shaun Gallagher presents a ground breaking interdisciplinary account of human action bringing out its essentially social dimension He explores and synthesizes the different approaches of action theory social cognition and critical social theory He shows that in order to understand human agency and the aspects of mind that are associated with it we need to grasp the crucial role of context or circumstance in action and the normative constraints of social and cultural practices He also investigates issues concerning social cognition and embodied intersubjective interaction including direct social perception and the role of narrative and communicative practices from an interdisciplinary perspective Gallagher thereby brings together embodied and enactive approaches to action for the first time in this book and in developing an alternative to standard conceptions of understanding others he bridges social cognition and critical social theory drawing out the implications for recognition autonomy and justice

## **Phenomenology and the**

**Primacy of the Political** Véronique M. Fóti, Pavlos Kontos, 2017-05-11 This volume is a Festschrift in honor of Jacques Taminiaux and examines the primacy of the political within phenomenology These objectives support each other in that Taminiaux's own intellectual itinerary brought him increasingly to an affirmation of the importance of the political Divided into four sections the essays contained in this volume engage with different aspects of the political dimension of phenomenology its dialogue with classic texts of political philosophy the political facets of phenomenological praxis phenomenology's contribution to actual political debates and the impact of Taminiaux's work in the shaping of phenomenology's notion of politics The phrase the primacy of the political echoes the primacy of perception as it was famously defined by Merleau-Ponty This book emphasizes however the inescapability of the political rather than its foundational character i.e. the fact that various itineraries of thought explored in different fields of phenomenological research give rise to politically relevant reflections It points out and elucidates political connotations that haunt phenomenological concepts such as world self nature intersubjectivity or language and traces them to a broad range of approaches concepts and methods In its explorations the book discusses a broad range of thinkers including but not limited to Aristotle and Kant Bergson Husserl Heidegger Merleau-Ponty Gadamer Ricoeur and Arendt

## **Axel Honneth**

Christopher Zurn, 2015-04-22 With his insightful and wide ranging theory of recognition Axel Honneth has decisively reshaped the Frankfurt School tradition of critical social theory Combining insights from philosophy sociology psychology history political economy and cultural critique Honneth's work proposes nothing less than an account of the moral infrastructure of human sociality and its relation to the perils and promise of contemporary social life This book provides an accessible overview of Honneth's main contributions across a variety of fields assessing the strengths and weaknesses of his thought Christopher Zurn clearly explains Honneth's multi-faceted theory of recognition and its relation to diverse topics individual identity morality activist movements progress social pathologies capitalism justice freedom and critique In so doing he places

Honneth stheory in a broad intellectual context encompassing classic socialtheorists such as Kant Hegel Marx Freud Dewey Adorno andHabermas as well as contemporary trends in social theory andpolitical philosophy Treating the full range of Honneth scorpus including his major new work on social freedom anddemocratic ethical life this book is the most up to date guideavailable Axel Honneth will be invaluable to students and scholarsworking across the humanities and social sciences as well asanyone seeking a clear guide to the work of one of the mostinfluential theorists writing today Individual Rights and the Making of the International System Christian Reus-Smit,2013-08-29 Shows the central role struggles over individual rights played in the development of today s global system of sovereign states Proceedings of the ... Annual Convention of the Association of American Agricultural Colleges and Experiment Stations Association of American Agricultural Colleges and Experiment Stations,1898 **Understanding Social Struggles** Hilkje C. Hänel,Fabian Schuppert,2025-11-27 Recently both liberal philosophy of recognition and theories of epistemic injustice have come under attack for failing to reconstruct how marginalized groups find sources of recognition and agency To understand social struggles well we need to think of the way in which those within the struggle act towards emancipatory change instead of focusing on the re actions of those in power This volume brings together leading scholars working at the intersection of epistemic injustice theories and recognition theories setting out to apply insights from this relation to contemporary phenomena and backlashes in the formation and acts of socially struggling emancipators also considering ideology critique epistemology of ignorance standpoint theory and theories of consciousness raising **Struggling Russia** Arkady Joseph Sack,1919 Bulletin United States. Office of Experiment Stations,1899 **Fighting for the River** Özge Yaka,2023-08-15 Fighting for the River portrays women s intimate embodied relationships with river waters and explores how those relationships embolden local communities resistance to private run of the river hydroelectric power plants in Turkey Building on extensive ethnographic research zge Yaka develops a body centered phenomenological approach to women s environmental activism and combines it with a relational ontological perspective In this way the book pushes beyond the natural resources frame to demonstrate how our corporeal connection to nonhuman entities is constitutive of our more than human lifeworld Fighting for the River takes the human body as a starting point to explore the connection between lived experience and nonhuman environments treating bodily senses and affects as the media of more than human connectivity and political agency Analyzing local environmental struggles as struggles for coexistence Yaka frames human nonhuman relationality as a matter of socio ecological justice
