Germany Since World War II:

World War II Memory and Contested Commemorations in Europe and Russia Jennifer A. Yoder, 2024-01-01

Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations. Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators. The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics. This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals. The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial. The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence. Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations. While *World War II Memory and Contested Commemorations in Europe and Russia* deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present. [Encyclopedia of Conflicts since World War II](#) James Ciment, Kenneth Hill, 2012-12-06 This copiously illustrated A-Z reference presents the most in depth information available about the various conflicts the world has endured local regional and international since World War II. Some 142 conflicts are discussed and analyzed. The *Encyclopedia of Conflict since World War II* with its coverage of all the countries of the world fills a critical need for clear comprehensive explanations of events not covered in such detail in any other reference source. Entries end with an extensive bibliography and the encyclopedia includes maps chronologies and a general bibliography as well as an index designed to make the reader understand the correlation and relationships between individual conflicts.

YUVAL NOAH HARARI author of *SAPIENS* NEW YORK TIMES BESTSELLER Author of the landmark international bestsellers *Guns Germs and Steel* and *Collapse* Jared Diamond has transformed our understanding of what

makes civilizations rise and fall Now at a time when crises are erupting around the world he explores what makes certain nations resilient and reveals the factors that influence how nations and individuals can respond to enormous challenges In a riveting journey into the recent past he traces how six distinctive modern nations Finland Chile Indonesia Japan Germany and Australia have survived defining catastrophes and identifies patterns in their recovery Looking ahead he investigates the risk that the United States and other countries faced by grave threat are set on a course towards catastrophe Adding a rich psychological dimension to the in depth history geography biology and anthropology that underpin all of Diamond's writing Upheaval is epic in scope but also his most personal book yet Fascinating I finished the book even more optimistic about our ability to solve problems than I started BILL GATES Jared Diamond does it again another rich original and fascinating chapter in the human saga with vital lessons for our difficult times STEVEN PINKER Germany After World War II Egon

Harings,2018-03-06 The Second World War is over Germany is just a field of rubble The people have no accommodations They live in ruins So called rubble women provide for the first construction houses their men are still in prisoner of war camps Germany is occupied by Allied troops Hunger is prevalent Then the year 1949 Two German states emerge Germany is divided and the eastern territories are under Polish and Russian administration Millions of Germans are expelled from these territories West Germany takes in most of the expellees Then the economic miracle The people in West Germany are doing well again In 1990 the reunification But Germany has to give up its eastern territories This book reports on the history of Germany from the era of Konrad Adenauer to the great age of Angela Merkel The reader learns about the founding of the European Union and its economic power today too and more German Shepherds Francis G. in Europe Peter R. Mansoor,1999 The German Wehrmacht was one of the most capable fighting forces the world has ever known but in the end it was no match for the Allies Some historians contend that the Allies achieved victory through brute force and material superiority But as Peter Mansoor argues all of the material produced by US industry was useless without trained soldiers to operate it a coherent doctrine for its use and leaders who could effectively command the formations into which it was organized **Courses and Degrees** Stanford University,1981 Shadow on the White House David L.

Anderson,1993 Harry Truman's administration began searching for an American response to the clash in Indochina between French colonialism and Vietminh communism in 1945 Thirty years and five administrations later Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress For Truman Ford and every American leader in between the dilemma in Vietnam hung ominously over the presidency In Shadow on the White House seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other Focusing on the personalities politics priorities and actions of the presidents as they confronted Vietnam the authors consider the expansion of presidential power in foreign policy formulation since World War II

In their analyses they chronicle the history of executive leadership as it related to Vietnam assess presidential prerogatives and motives on war and peace issues and clarify the interconnection between the modern presidency and the nation's frustrating tragic and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources the essays provide a framework on which to hang the kaleidoscopic events of the war. Amazon.com **The Log**, 1952 Quest for Decisive Victory Robert Michael Citino, 2002 Since the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign. But by the mid 19th century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory. Great battles had become curiously indecisive decisive campaigns virtually impossible *The Western Heritage: To 1715* Donald Kagan, Steven E.
