**The Cost of Ambition (Theology for the Life of the World)** Miroslav Volf, 2025-05-20 Many people believe that ambition understood as striving to be better than others improves us as individuals and advances our whole society. But what if the opposite is true? In *The Cost of Ambition* world renowned theologian and award winning author Miroslav Volf argues that striving for superiority actually makes us worse. Working his way backward in time Volf explores what three influential thinkers Søren Kierkegaard John Milton and the apostle Paul say about the cost of ambition. He also explores what the teachings of Jesus and the stories in Genesis say on the matter. Volf explains that striving to be better than others though widely accepted as part of modern life devalues our achievements things that surround us and relationships because it makes them into mere means to an empty goal of being better than someone else. He reveals ambition's negative consequences in all domains of life showing that it is at odds with the key convictions of Christian faith. After unpacking the toxicity of ambition Volf uses contemporary examples to guide readers to a better goal striving for excellence. **Values Information from AI**

The present book analyzes theoretical thinking on education from the standpoints of both traditions. The book deals with continental educational thinking while discussing the notion of Bildung and its diversity from J. A. Comenius to Th. Adorno. In addition the book discusses the idea of growth inherited from American progressive

education and classical Pragmatism The various contributors to the book offer insights to the theoretical discussion on education and specify the historical and thematic connections between different thinking models The book shows that connections between continental educational theories and classical Pragmatism are stronger than generally assumed As such the book invites the readers to challenge their own prejudices and views on Bildung and growth and the relationship between them Education would be tyranny if it did not lead to freedom J F Herbart The teacher who can get along by keeping spontaneous interest excited must be regarded as the teacher with the greatest skill W James **Creative Being** Judith
