Hard times create strong men.  
Strong men create good times.  
Good times create weak men.  
And, weak men create hard times.

**The Sissification of America's Young Men** Matt

Guedes, 2021-10-20 We are living in a new era in the United States of America Part of what comes with this new territory is the result of a very intentionally played long game that has worked for over sixty years to bring about these changes Those who have worked so hard to change manhood and masculinity have done so with no regard at all for God or His plan These organizations and their members have been relentless in their pursuit of removing God and His plan from our society The long game has been played to perfection and now we who love the Lord and His design for man must make changes in order to take back the ground which has been stolen We must be willing to do so with a WIT whatever it takes mentality because the cost has been way too high Before another generation of boys grow up without understanding what real manhood and masculinity are supposed to look like we who love the Lord and America must stand In this great read Matt lays out the problem and how we got here He gives you an assessment that must come before the fix He then demonstrates the correction that is necessary to reverse the current state of affairs Lastly Matt walks through the reality of biblical manhood

**Searching for the New Black Man** Ronda C. Henry Anthony, 2013-06-01

Using the slave narratives of Henry Bibb and Frederick Douglass as well as the work of W E B Du Bois James Baldwin Walter Mosley and Barack Obama Ronda C Henry Anthony examines how women's bodies are used in African American literature to fund the production of black masculine ideality and power In tracing representations of ideal black masculinities and femininities the author shows how black men's struggles for gendered agency are inextricably entwined with their complicated relation to white men and normative masculinity The historical context in which this study couches these struggles highlights the extent to which shifting socioeconomic circumstances dictate the ideological cultural and emotional terms upon which black men conceptualize identity Yet Anthony quickly moves to texts that challenge traditional constructions of black masculinity In these texts she traces how the emergence of collaboratively gendered discourses or a blending of black female male feminist consciousnesses are reshaping black masculinities femininities and intraracial relations for a new century
