Structuralism In Literature:

Structuralism in Literature Robert Scholes, Robert E. Scholes, 1974-01-01 The nature and leading exponents of the structuralist movement are considered as well as the structural poetics of fiction and drama The Poverty of Structuralism Leonard Jackson, 2014-09-11 The Poverty of Structuralism is the first in a sequence of volumes which examine in turn the basic ideas of Saussure Marx and Freud and analyse the way in which they have been developed and applied to art culture and modern textual theory The text offers a critical introduction to the structuralist foundations of modern literary theory It gives an account of the way such foundations have been developed twisted and distorted to become part of the language that contemporary literary and cultural theoreticians use It also addresses some of the fundamental issues about language and society that are presupposed by the often difficult language of modern literary and cultural theory **The Fate of Meaning** John K. Sheriff, 2014-07-14 This succinct and lucid study examines the thought of the philosopher Charles Peirce as it applies to literary theory and shows that his concept of the sign can give us a fresh understanding of literary art and criticism John Sheriff analyzes the treatment of determinate meaning and contends that as long as we cling to a notion of language that begins with Saussure's dyadic definition of signs meaning cannot be treated as such any more than can essence or presence Asserting that Peirce's less familiar position offers a way out of this difficulty Sheriff first discusses the Saussurean based theory of meaning and then argues for the advantages of the radically different triadic theory developed by Peirce Part One of the work reviews and critiques the treatment of meaning in works by Jonathan Culler Tzvetan Todorov Stanley Fish Roland Barthes and Jacques Derrida among others The focus of this section is on the treatment of meaning in structural and post structural theories and their common basis in Saussurean linguistics Part Two provides a readable introduction to Peirce's general theory of signs and develops comprehensively the implications of his semiotic The substitution of his theory for Saussure's opens our eyes to new and cogent answers to many questions relevant to the meaning of texts Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Structuralist Poetics** Jonathan Culler, 2023-01-06 A work of technical skill as well as outstanding literary merit Structuralist Poetics was awarded the 1975 James Russell Lowell Prize of the Modern Language Association It was during the writing of this book that Culler developed his now famous and remarkably complex theory of poetics and narrative and while never a populariser he nonetheless makes it crystal clear within these pages *Structuralist Poetics: Poetics* Jonathan D. Culler, 2002 A classic survey of structuralist literary criticism combined with a survey about how English and American criticism might benefit from its lessons *A Reader's*

Guide to Contemporary Literary Theory Raman Selden, Peter Widdowson, Peter Brooker, 2016-12-19 A Reader's Guide to Contemporary Literary Theory is a classic introduction to the complex yet crucial area of literary theory. This book is known for its clear accessible style and its thorough logical approach guiding the reader through the essentials of literary theory. It includes two new chapters: New Materialisms which incorporates ecocriticism, animal studies, posthumanism and thing theory; 21st Century and Future Developments which includes technology, digital humanities, ethics and affect.

Structuralism or Criticism? Geoffrey Strickland, 1981-04-16 Geoffrey Strickland's book considers some of the principal Structuralist theories of the sixties and seventies which derive from the semiology or science of signs postulated by the Swiss linguist Saussure at the beginning of the twentieth century. The book falls into three parts. In the first Strickland argues that in one essential the structuralist enterprise was misconceived. The second and most substantial part of the book is a defence of certain fundamental presuppositions in the act of reading. There is a discussion of the nature and accessibility of authorial intention, of the necessary fallibility in our understanding of what we read, of the objective aspect of evaluation and of the sense in which the student of literature is also a student of history. In the final section the author summarises the arguments of the book with a detailed comparison of the writings of Roland Barthes and F R Leavis. Strickland has produced a lively and provocative contribution to literary debates on structuralism which ranges widely over both French and English criticism and literary theory.

Roland Barthes, Structuralism and After Annette Lavers, 1982 This study of one of the major structuralists and the first proponent of semiology will prove indispensable to anyone wanting to understand recent French theory. Lavers gives an overview of French thought during the past forty years from existentialism and post-war Marxism to structuralism and Post-Structuralism debates showing the influences on Barthes as well as how his work relates to that of other contemporary theorists. Examining Barthes's books and essays chronologically, Lavers stresses the continuity of his aims while recording the shifts in his views as he met the challenges of a changing theoretical milieu. Provided by publisher.

Reader-response Criticism Jane P. Tompkins, 1980 Reader Response Criticism: From Formalism to Post-Structuralism collects the most important theoretical statements on readers and the reading process. Its essays trace the development of reader response criticism from its beginnings in New Criticism through its appearance in structuralism, stylistics, phenomenology, psychoanalytic criticism and post-structuralist theory. The editor shows how each of these essays treats the problem of determinate meaning and compares their unspoken moral assumptions. In a concluding essay she redefines the reader response movement by placing it in historical perspective, providing the first short history of the concept of literary response. This anthology remains an indispensable guide to reader response criticism. From publisher's description.
