Structure Of College Choice:

The Structure of College Choice Robert Zemsky, Penney Oedel, 1983 **Choosing Colleges** Patricia M. McDonough, 1997-11-13 Examines the everyday experiences of high school seniors as they choose their colleges and demonstrates that college choice is a more complex social and organizational reality than has been previously understood

Making Up Our Mind Sigal R. Ben-Porath, Michael C. Johanek, 2019-04-24 If free market advocates had total control over education policy would the shared public system of education collapse? Would school choice revitalize schooling with its innovative force? With proliferating charters and voucher schemes would the United States finally make a dramatic break with its past and expand parental choice? Those are not only the wrong questions, they're the wrong premises, argue philosopher Sigal R. Ben Porath and historian Michael C. Johanek in *Making Up Our Mind*. Market driven school choices aren't new. They predate the republic and for generations parents have chosen to educate their children through an evolving mix of publicly supported private charitable and entrepreneurial enterprises. The question is not whether to have school choice. It is how we will regulate who has which choices in our mixed market for schooling and what we as a nation hope to accomplish with that mix of choices. Looking beyond the simplistic divide between those who oppose government intervention and those who support public education, the authors make the case for a structured landscape of choice in schooling one that protects the interests of children and of society while also identifying key shared values on which a broadly acceptable policy could rest.

Indiana School Journal and Teacher, 1880 **report of the commissioner of education**, 1879 *A Critique of Design-arguments* Lewis Ezra Hicks, 1883 *Public Opinion*, 1895 **School Choice in Michigan** Matthew Joseph Brouillette, 1999 This primer explains school choice historically, reviewing the origins and growth of tax funded schools nationwide and how they became synonymous with public education. It examines the rise of government funded and operated schools in Michigan through the efforts of Isaac Crary and John Pierce and describes the negative effects of a 1970 state constitutional amendment that severely restricts parents' ability to exercise school choice. The primer demonstrates the failure of many past and present education reforms, including ever increasing funding, to significantly improve the quality of government education and it explains different types of school choice, including intra and inter district choice, charter schools.

tuition vouchers and tax credits Finally it evaluates the progress of school choice programs available nationwide identifies individuals and organizations who support oppose or are ambivalent to greater school choice in Michigan and outlines strategic plans that parents and other concerned citizens can follow to get involved in efforts to improve education through greater school choice Appendixes include a glossary a sample illustration of how to advocate for school choice with letters to the editor of local newspapers and a list of where to go for more information on this and other education issues Contains 175 endnotes SM
