The Structure of Marx's World-View John McMurtry,1975 *Exiting a Racist Worldview (Revised): A Journey Through Foucault, Said, Marx to Liberation, The Revolution that Failed* Daurius Figueira ,2023-12-01 This text was originally published in 2004 as a provisional road map gesturing to a plan of action for liberation at the level of the idea vitally compulsory to dismantle the hegemony of the white world order of power in the 21st century Since 2004 deconstruction of the oeuvre of Frantz Fanon Michel Foucault Derek Walcott the discourse of massa of African enslavement in the Caribbean and the Thought of Xi Jinping for the New Era have been published which has changed the nature of the road map today versus that of 2004 An extensive revision of the text of 2004 was now necessary which focuses on the the nature of hallucinatory whiteness that afflicts non white peoples under the hegemony of massa white world order of power thereby rendering them incapable of liberating themselves at the level of the idea The need now was to uncover hallucinatory whiteness as it constitutes human action and how the nature of this action is the product of hallucinatory whiteness hence it reinforces white hegemony over the non white person at the level of the idea To this end a deconstruction of the writings of Toussaint L Ouverture of the Haitian Revolution George Jackson of the African Revolution of Amerikkka and skin bleaching in

the Caribbean in the 21st century are presented as case studies illustrating potently the debilitating power hallucinatory whiteness wields over the mind of non white persons who insist they are champions of liberation which drives the resilience of massa hegemony over non white peoples of the world **The Scientific Marx** Daniel Little,1986 The Scientific Marx was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Marx advanced Capital to the public as a scientific explanation of the capitalist economy intending it to be evaluated by ordinary standards of scientific adequacy Today however most commentators emphasize Marx s humanism or his theory of historical materialism over his scientific claims The Scientific Marx thus represents a break with many current views of Marx s analysis of capitalism in that it takes seriously his claim that Capital is a rigorous scientific investigation of the capitalist mode of production Daniel Little discusses the main features of Marx s account applying the tools of contemporary philosophy of science He analyzes Marx s views on theory and explanation in the social sciences the logic of Marx s empirical practices the relation between Capital and historical materialism the centrality of micro foundations in Marx s analysis and the minimal role that dialectics plays in his scientific method Throughout Little relies on evidence taken from Marx s actual practice as a social scientist rather than from his explicit methodological writings The book contributes to current controversies in the literature of analytic Marxism joined by such authors as Jon Elster G A Cohen and John Roemer

Reconstructing Marxism Erik Olin Wright,Andrew Levine,Elliott Sober,1992 Reconstructing Marxism explores fundamental questions about the structure of Marxist theory and its prospects for the future The authors maintain that the disintegration of the old theoretical unity of classical Marxism is in part responsible for what is commonly called the crisis of Marxism Only a reconstructed Marxism can come to terms with this disintegration Addressing a range of problems in historical materialism and class analysis the authors compare historical materialism with Darwinian evolutionary theory and identify what is distinctively historical in Marx s theory of history Through an evaluation of G A Cohen s defense and Anthony Giddens s critique of historical materialism they suggest what a plausible yet still Marxist theory of history might be They analyze the relationship of microanalysis to macro theory and the assignment of causal primacy in explanations and present a general assessment of the current state of Marxist theory and the prospects for its analytical reconstruction Distinguished by the clarity of its presentation the analytical rigour of its argument and its concern with fundamental philosophical and sociological issues Reconstructing Marxism advances at this critical juncture in the history of Marxism a challenging new research programme **Destruction By Design** Steven Owlett, EdD,2024-09-30 On the precipice of global upheaval this book delves into the systemic forces threatening our way of life From the erosion of public trust to the escalating climate crisis from the psychological grip of social media to the economic stranglehold of debt it paints a stark picture of a world teetering on the edge of chaos But amidst the destruction glimmerings of hope emerge Systems thinking and complex adaptive approaches offer tools to navigate the ever changing

landscape Insights from ancient wisdom like Sun Tzu s Art of War and historical giants like the Roman Empire provide lessons for resilience and adaptation Modern advancements in science and technology from CRISPR to AI hold the potential for both profound destruction and unimaginable progress The book s core lies in confronting the critical issues of our time The erosion of trust the breakdown of systems threats to individual well being and the looming environmental and economic crises Through a balanced exploration of diverse viewpoints from skeptics to activists the book equips readers with the tools to form informed opinions It challenges readers to examine the world around them critically break free from echo chambers and develop informed perspectives on the most pressing issues of our time Ultimately this book is a call to action It urges us to embrace systems thinking and diverse perspectives and actively participate in shaping our future By understanding the complex forces at play and harnessing the power of innovative solutions we can navigate the chaos and build a more resilient just and sustainable world for ourselves and future generations

Persaud,1991 This is a fascinating major articulation of a contemporary theology of the cross in response to the soteriological challenge of Karl Marx s anthropological Weltanschauung The author focuses primarily on the much neglected Early Writings 1844 Manuscripts in which Marx himself provides a necessary humanistic critique of official Marxism The theology of the cross which the author articulates is centered in Luther s theologia crucis Moltmann s crucified God and Latin American liberation theology s divine identification and solidarity with the poor and the oppressed Specifically the context of the work is the Caribbean and the Americas

Black Politics in Conservative America Marcus D. Pohlmann,1990 A portrait of the black experience in America which documents a system of institutionalized discrimination dating back to the founding fathers The author explores the problems confronting blacks in 20th century America and the economic discrimination aimed at keeping blacks from moving ahead
