C. The Structure of Allegory in The Faerie Queene**, 1961      *Self-interpretation in The Faerie Queene* Paul Suttie, 2006 A new reading of the allegorical nature of The Faerie Queene offering radical new insights into its narrative and form Recent Spenser criticism has thrown much new light and much doubt on the nature of The Faerie Queene s involvement in contemporary political and religious controversies Material to these developments has been wide recognition of the unreliability of the poem s narrating voice and its often parodic relation to generic conventions Nonetheless some longstanding misconceptions about allegory still limit understanding of Spenser s approach to topical issues This book re examines The Faerie Queene s allegorical method showing what is gained by recognising that the poem s main locus of allegorical self interpretation as in the medieval Quest of the Holy Grail is within rather than extrinsic to the story world Like the knights of the Quest Spenser s heroes are poised between rival codes of moral interpretation in a way that illuminates the relative value of those codes as guides to action But unlike its predecessor Spenser s poem addresses an era violently divided as to which constitutes the true code of right and wrong Amongst the oppositions it grapples with are the ideological conflict in England and Ireland between emergent monarchic absolutism and residual feudalism the doctrinal division between the Elizabethan and Roman churches and the Machiavellian challenge to received ideas about political and religious legitimacy Dr PAUL SUTTIE is a Senior Member of Robinson College Cambridge      **The New Cambridge Bibliography of English Literature: Volume 1, 600-1660** George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has

established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

*The Ends of Allegory* Sayre N. Greenfield,1998 This book proposes that allegory is not a species of literature but a structure of reading applied to uncomfortable juxtapositions within literary texts Examples from centuries of response to English Renaissance narrative poetry show not what poems mean but how they may be read and what cultural conditions encourage allegorical or nonallegorical readings The study also encompasses interpretations of classical verse biblical parable Jacobean masque modern lyric and television advertising to explore how texts move in and out of the category of allegory
