## Structures Of The Jazz Age:

**Structures of the Jazz Age** Chip Rhodes,1998 Rhodes grants the truth of appearances to the clichés of the Jazz Age the lost generation of writers the era of mass consumption and the silver screen while revealing their roots in a conservative ideology which sustained Republican rule

**Jazz Age Chicago** Joseph Gustaitis,2022-01-17 When people imagine 1920s Chicago they usually and justifiably think of Al Capone speakeasies gang wars flappers and flivvers Yet this narrative overlooks the crucial role the Windy City played in the modernization of America The city's incredible ethnic variety and massive building boom gave it unparalleled creative space as design trends from Art Deco skyscrapers to streamlined household appliances reflected Chicago's unmistakable style The emergence of mass media in the 1920s helped make professional sports a national obsession even as Chicago radio stations were inventing the sitcom and the soap opera Join Joseph Gustaitis as he chases the beat of America's Jazz Age back to its jazz capital

**A Visual History of Twentieth-century Architecture** Dennis Sharp,1972 The twentieth century has witnessed dramatic and fundamental changes in almost every branch of architecture It has been a period of experiment in the use of new materials and constructional methods which has led to an extraordinarily wide range of buildings from highly personal and emotional structures to the cool geometry of pure forms This is the first book to attempt in strictly chronological terms to survey all the major buildings of this century It is arranged in decades from 1900 to 1970 within each decade all significant completed buildings which have had a generic influence on twentieth century architecture are examined Each entry is fully documented and the building's present state is given where known Each building is illustrated with photographs drawings and plans An introduction sets the scene looking back to the engineering achievements of the nineteenth century to the architects technical inheritance and the aesthetic problems that have occupied architects and theorists of this century Each decade is prefaced by a short evaluation of the developments within those years The buildings themselves are presented in clear

factual terms and much hitherto unknown information is given In addition to the decade chapters the book provides a useful chronology of buildings erected between 1900 and 1970 and a comprehensive index It is illustrated with nearly 1 000 monochrome and colour illustrations The combination of background information with a large body of factual matter makes this book of exceptional value to anyone who is interested in the social and cultural life of the twentieth century To students and historians it will become an essential reference work from dust jacket      A Field Guide to American Architecture Carole Rifkind,1984 Incisive jargon free and a pleasure to read A Field Guide To American Architecture presents an exceptionally comprehensive view of American architecture from the 1940s to the present Plentiful photographs and graphic representations carefully interwoven with succinct text and informative captions make this volume ideal for browsing as well as serious study Like Carole Rifkind's earlier book this one investigates buildings by type taking a fresh vantage point for each houses housing projects public buildings art museums churches and synagogues schools and colleges tall office buildings and shopping centers Encompassing the works of two hundred architects from the little known to the famous it builds a diverse and fascinating panorama of recent American architecture      American Forests Char Miller,1997 American Forests is an interdisciplinary collection of essays that explore the impact of forestry on natural and human landscapes since the mid nineteenth century It has two main goals to present some of the most compelling arguments that have guided our understanding of the complex and evolving relationship between trees and people in the United States and to point out those aspects of this tangled interaction that we have yet fully to understand or to articulate Preface ix      Devil's Bargains Hal Rothman,1998 The West is popularly perceived as America's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America's land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry's darker side He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true

stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore IEEE Transactions on Systems, Man and Cybernetics, 1960 Cuttin' Up Court Carney, 2009 Reveals how the new technologies of mass culture the phonograph radio and film played a key role in accelerating the diffusion of jazz as a modernist art form across the nation's racial divide Focuses on four cities New Orleans New York Chicago and Los Angeles to show how each city produced a distinctive style of jazz The Design of Building Structures Wolfgang Schueller, 1996 Rather than relying on separate literature in the fields of structural engineering architecture construction and history this text presents the field of structures holistically in terms of building and architecture Buildings are studied from all points of view geometrical aesthetic historical functional environmental and construction providing the broadest treatment of structures available Descriptive analytical and graphical treatment of topics are presented with nearly equal emphasis Numerous case studies throughout exemplify structural concepts and develop a feeling for structure and form instead of supporting specific architectural styles or structural acrobatics Teaching in the context of building structure and form i.e. low rise high rise long span etc allows students to understand structures on real not abstract mathematical terms Structural systems i.e. frames arches space frames soft shells etc and how they aid in making space and enhancing the formal presentation of a structure are discussed in detail Chapter 3 deals with approximate design methods for steel wood reinforced concrete and prestressed concrete according to the Jazz Age Barcelona Robert A. Davidson, 2009-08-20 Using periodicals and recently rediscovered archival material Davidson considers the relationship between the political pressures of a brutal class war the grasp of a repressive dictatorship and the engagement of the city's young intellectuals with Barcelona's culture and environment *Architecture*, 1929 The professional architectural monthly varies **Architectural Record**, 1986-05 **The Software Encyclopedia**, 1997 Keith's Magazine on Home Building, 1927 **The Romance of the Merit System** Matthew Francis Halloran, 1929 *Contemporary Types of the Short Story* Gordon Hall Gerould, Charles Bayly, 1927
