**Resolving Cyprus** James Ker-Lindsay, 2014-11-13 Over the past fifty years the Cyprus Problem has come to be regarded as the archetype of an intractable ethnic conflict. Since 1964 the United Nations has been at the forefront of efforts to find a political solution to the dispute between the island's Greek and Turkish communities. And yet despite the active involvement of six Secretaries General – U Thant, Kurt Waldheim, Javier Perez de Cuellar, Boutros Boutros Ghali, Kofi Annan and Ban Ki Moon – every attempt to reach a mutually acceptable solution has failed. Here James Ker Lindsay draws together new and original perspectives from the leading experts on Cyprus including academics, policy makers, politicians and activists. All have addressed one deceptively simple question: Can Cyprus be solved? *Resolving Cyprus* presents a comprehensive overview of the Cyprus Problem from a variety of approaches and offers new and innovative ideas as to how to tackle one of the longest running ethnic conflicts on the world stage. This represents an essential contribution to the body of work on Cyprus and will be required reading for all those following the debates surrounding the Cyprus problem.

Centering on L r's universal chronicle *Mir atu l Adv r wa Mir tu l A b r* (The Mirror of Epochs) and the *Staircase of Historical Reports* this book explores how a figure in philosophy, theology

*The Russian Understanding of War* Oscar Jonsson, 2019-11-01 This book analyzes the evolution of Russian military thought and how Russia's current thinking about war is reflected in recent crises While other books describe current Russian practice Oscar Jonsson provides the long view to show how Russian military strategic thinking has developed from the Bolshevik Revolution to the present He closely examines Russian primary sources including security doctrines and the writings and statements of Russian military theorists and political elites What Jonsson reveals is that Russia's conception of the very nature of war is now changing as Russian elites see information warfare and political subversion as the most important ways to conduct contemporary war Since information warfare and political subversion are below the traditional threshold of armed violence this has blurred the boundaries between war and peace Jonsson also finds that Russian leaders have particularly since 2011-12 considered themselves to be at war with the United States and its allies albeit with non violent means This book provides much needed context and analysis to be able to understand recent Russian interventions in Crimea and eastern Ukraine how to deter Russia on the eastern borders of NATO and how the West must also learn to avoid inadvertent escalation
