*Research Advances in Alcohol and Drug Problems* H.M. Annis, H.D. Cappell, F.B. Glaser, M.S. Goodstadt, L.T. Kozlowski, 2013-11-11 This is the tenth volume in the Research Advances series and the seventh published by Plenum Press. Volume 10 is another omnibus volume providing specialized and advanced reviews in a number of areas related to the use of alcohol, illicit drugs, and tobacco. We include also a brief history of the Center for Alcohol Studies that gives Mark Keller's unique perspective on this noted institution. Two of the chapters are decidedly longer than the others; very long chapters have appeared occasionally in the past and we think that it is one of the strengths of the series that we are able to accommodate such reviews. Again, the editorial board has changed. After several years of service, Reginald G. Smart has stepped down. New to the board are Helen M. Annis, Michael S. Goodstadt, Lynn T. Kozlowski, and Evelyn R. Vingilis. This is likely to be the sole volume for which Goodstadt is on the board since before completion of this volume he moved from the Addiction Research Foundation to the Center for Alcohol Studies, Rutgers University. *The Community Health Nurse and Alcohol-related Problems: Instructor's curriculum planning guide*, 1978. *Alcohol Abuse and Its Implications for Families* United States Congress. House. Select Committee on Children, Youth, and Families, 1985. **Alcohol, Social Work, and Helping** Stewart Collins, 2023-09-29 First published in 1990. *Alcohol, Social Work, and Helping* provides coherent and imaginative advice on how to counsel the growing number of clients whose use of alcohol causes problems. It locates intervention within societal and agency contexts and tackles such practical issues as how to work with a problem drinker, which short-term goals to suggest, what kind of help to apply, and how to assist in the event of a relapse. The contributors, with backgrounds in academic, statutory, and voluntary settings, focus on key areas of intervention: family and group contexts, and there is a chapter on the particular circumstances and needs of women. All relevant information, both general and specialized, is presented in a clear, easy-to-read style and is aimed at developing existing knowledge and skills. This book will be of interest to students of health, social work, and sociology. **The Alcoholic Family in Recovery** Stephanie Brown, Virginia M. Lewis, 2002-08-19 This book explores the process of recovery from addiction as it affects the entire family, presenting an innovative model for understanding and treating families navigating this difficult period. The authors draw upon extensive clinical and research experience to demonstrate how families can be helped to regroup after abstinence, weather periods of emotional upheaval, and find their way to establishing a more stable yet flexible family system. Filled with vital therapeutic insights and conceptual guideposts, this book is an essential tool for clinicians from a range of disciplinary backgrounds. Offering an invaluable systems perspective on what is far too often seen as an individual problem, this book will enhance the work of addiction treatment specialists, couples and family therapists, psychologists, psychiatrists, social workers, counselors, and nurses. **Family Communication** Chris Segrin, Jeanne Flora, 2011-10-14 *Family Communication* carefully examines state-of-the-art research and theories of family communication and family relationships. In addition to presenting cutting-edge

research it focuses on classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction This text offers a thorough and up to date presentation of scientific research in family communication for both teachers and students of family communication as well as professionals who work with families This second edition features Chapters updated with the latest research including over 2000 references Material on understudied family relationships such as extended family relationships and gay and lesbian relationships Recent research on understudied topics in family communication including the influence of technology on mate selection negotiating work and family stress single parenting cohabitation elder abuse forgiveness in marriage and the links among communication culture and mental health A revised chapter on parent child communication taking a lifespan perspective that helps organize the large body of research in this area A new chapter devoted to extended family relationships with special focus on grandparent grandchild relationships in law relationships and adult children and their parents An expanded review of family conflict processes especially in relation to decision making and power A companion website provides chapter outlines exam questions and PowerPoint slides for students and instructors Undergraduate readers should find the information easy to understand while advanced readers such as graduate students and professionals will find it a useful reference to classic and contemporary research on family communication and relationships
