Dungeon Module B2 Gary Gygax, 1980-01-01 Transforming Borders Alejandra C. Elenes, 2010-11-15 Transforming Borders Chicana/o Popular Culture and Pedagogy contributes to transformative pedagogies scholarship by adding the voices of Chicana feminist pedagogies epistemologies and ontologies C Alejandra Elenes develops her conceptualizations of border transformative pedagogies by linking the relationship between cultural practices knowledge and teaching in everyday life She analyzes Chicana feminist cultural workers educational actors re imagining three Mexican figures La Llorona the weeping woman the Virgen of Guadalupe and Malintzin Malinche as epistemological and pedagogical meanings The three figures represent multiple meanings traditional views on femininity religion and nationalist views on women yet at the same time feminists have re imagined these three figures and developed counter narratives that can offer alternatives to the traditional meanings In developing border transformative pedagogies Elenes looks at the significance of historical events such as the creation of the Mexico U S border to understand the experiences of people of Mexican descent in the United States She also examines oral histories of the legend of La Llorona in the Southwest historical documents on the Spanish conquest of Mexico and Chicana artists such as Ester Hernandez Yolanda Lopez Consuelo Jimenez Underwood and Alma Lopez re imagining of the Virgen of Guadalupe The conflicts over the meanings of the three figures can help us understand

how Chicanas have used their voices to counter economic and gender inequalities and how pedagogical practices show that cultural productions are sites where forms of domination can be contested and recreated in ways that allow for the creation of alternative identities and subjectivities

The Borderlands Project Borderlands Project, 1991

The Borderlands Project is meant to promote greater recognition and understanding of the status of the United States and Canada as border neighbours. It is a comprehensive study of transborder attributes undertaken by a multidisciplinary team of social science and humanities scholars from both sides of the border. The fourteen essays in this volume examine history, economics, the environment, literature, politics and trade with reference to specific regions and the border at large. They provide a new set of lenses for policymakers, educators and librarians, and sharpen the images of reality formed by competition and cooperation between two industrial democracies in North America.
