A Guide To Network Marketing Surya Sinha, 2008-01-01 NETWORK MARKETING AND CALL OF THE FUTURE We should hear the call of the future that network marketing brings with itself. Major companies do not want middlemen such as stockists, agents, distributors, wholesalers and retailers to come between them and their customers. They want to connect directly with the consumer and they want to pass on the discounts directly to the end consumer which were earlier being given to stockists, agents, distributors, wholesalers and retailers. Many major companies worldwide have understood this fact and they are carrying on with their business through network marketing. We do not need to look far because leading Indian companies have accepted the truth that the best way of selling products in the future is through network marketing. Some companies have already adopted this system and their products are being sold in many major Indian cities. In the near future products would be sold in every city, town and village through network marketing. Moreover there are many other companies which are making preparations to adopt this beautiful system. So it could be said that the network marketing business has a very bright future.
