# Operator's Manual

## Crane Serial Number

The crane serial number is on the Crane Rating Manual in a box below the operator's seat in the operator's cab. The crane serial number should always be furnished when ordering parts for the crane, or when corresponding with the Link-Belt Distributor or Factory regarding the crane. The serial number is the only method the Link-Belt Distributor or Factory has of ensuring that the correct parts will be furnished.

In the event the serial number cannot be found on the Crane Rating Manual, a number is stamped on the top right side of the lower frame and on the right side of the upper frame just above the boom hoist cylinder lug. This number can then be used to help to identify the crane.
