Daniels,Nancy Whittier Heer,1976 The Dynamics of Soviet Politics is the result of reflective and thorough research into the centers of a system whose inner debates are not open to public discussion and review a system which tolerates no public opposition parties no prying congressional committees and no investigative journalists to ferret out secrets The expert authors offer an inside view of the workings of this closed system a view rarely found elsewhere in discussions of Soviet affairs Their work building as it does on the achievements of Soviet studies over the last thirty years is firmly rooted in established knowledge and covers sufficient new ground to enable future studies of Soviet politics and social practices to move ahead unencumbered by stereotypes sensationalism or mystification Among the subjects included are attitudes toward leadership and a general discussion of the uses of political history the dramatic cycles of officially permitted dissent the legitimacy of leadership within a system that has no constitutional provision for succession the gradual adoption of Western inspired administrative procedures and systems management a study of group competition and bureaucratic bargaining Khrushchev's virgin lands experiment and its subsequent retrenchment the apolitical values of adolescents the problems of integrating Central Asia into the Soviet system a history of peaceful coexistence and its current importance in Soviet foreign policy priorities and finally an overview of Soviet government as an extension of prerevolutionary oligarchy with an emphasis on adaptation to political change

**Red Sunset** Philip G. Roeder,1993-10-10 Why did the Soviet system fail How is it that a political order born of revolution perished from stagnation What caused a seemingly stable polity to collapse Philip Roeder finds the answer to these questions in the Bolshevik constitution the fundamental rules of the Soviet system that evolved from

revolutionary times into the post Stalin era These rules increasingly prevented the Communist party from responding to the

immense social changes that it had itself set in motion although the Soviet political system initially had vast resources for transforming society its ability to transform itself became severely limited In Roeder s view the problem was not that Soviet leaders did not attempt to change but that their attempts were so often defeated by institutional resistance to reform The leaders successful efforts to stabilize the political system reduced its adaptability and as the need for reform continued to mount stability became a fatal flaw Roeder s analysis of institutional constraints on political behavior represents a striking departure from the biographical approach common to other analyses of Soviet leadership and provides a strong basis for comparison of the Soviet experience with constitutional transformation in other authoritarian polities
