Philosophy and the City Keith Jacobs, Jeff Malpas, 2019-03-15 Philosophy has its origins in the city and in the context of our own highly urbanised modes of living. The relationship between philosophy and the city is more important than ever. The city is the place in which most humans now play out their lives and the place that determines much of the cultural, social, economic, and political life of the contemporary world. *Towards a Philosophy of the City* explores a wide range of approaches and perspectives in a way that is true to the city's complex and dynamic character. The volume begins with a comprehensive introduction that identifies the key themes and then moves through four parts examining the concept of the city itself, its varying histories and experiences, the character of the landscapes that belong to the city, and finally the impact of new technologies for the future of city spaces. Each section takes up aspects of the thinking of the city as it develops in relation to particular problems, contexts, and sometimes as exemplified in particular cities. This volume provides an invaluable resource for students and scholars in Philosophy, Geography, Sociology, and Urban Studies.

Philosopher-Kings of Antiquity William Desmond, 2011-10-27 One of the most celebrated of Plato's ideas was that if human society was ever to function successfully then philosophers would need to become kings or kings philosophers. In a perfect state therefore, philosophic wisdom should be wedded to political power. In antiquity, who were or aspired to be philosopher kings? What was their understanding of wisdom and the limits of knowledge? What influence have they had on periods beyond antiquity? This volume focuses on Plato and his contemporaries, Alexander the Great and his Hellenistic successors, Marcus Aurelius and the good emperors, Moses, Solomon, and early Hebrew leaders, and Julian the Apostate, the last of the pagans. In conclusion, it looks at the re-emergence of the Platonic ideal in important moments of European history such as the Enlightenment. The theme of the philosopher king is significant for Greco-Roman antiquity as a whole and this work is unique in detailing the development of an idea through major periods of Greek and Roman history and beyond.

Selected Philosophical Poems of Tommaso Campanella Tommaso Campanella, 2011-02-15 A contemporary of Giordano Bruno and Galileo Galilei, Tommaso Campanella (1568-1639) was a controversial philosopher, theologian, astrologer, and poet who was persecuted during the Inquisition and spent much of his adult life imprisoned because of his heterodox views. He is best known today for two works:

The City of the Sun a dialogue inspired by Plato's Republic in which he prophesies a vision of a unified peaceful world governed by a theocratic monarchy and his well meaning Defense of Galileo which may have done Galileo more harm than good because of Campanella's previous conviction for heresy. But Campanella's philosophical poems are where his most forceful and undiluted ideas reside. His poetry is where his faith in observable and experimental sciences, his astrological and occult wisdom, his ideas about deism, his anti Aristotelianism and his calls for religious and secular reform most put him at odds with both civil and church authorities. For this volume Sherry Roush has selected Campanella's best and most idiosyncratic poems which are masterpieces of sixteenth century Italian lyrics displaying a questing mind of great if unorthodox brilliance and showing Campanella's passionate belief in the intrinsic harmony between the sacred and secular.

[Looking Through Philosophy in Black](#) Mabogo Percy More, 2018-12-11. This autobiography is a series of interrelated true life events and decisions taken by a black philosopher that highlight the human drama unfolding in the inferno of the South African apartheid system. Mabogo More details what it means to be a black philosopher in an anti black apartheid academic world. More's life story traces his emergence in philosophy and his pursuit of a philosophical dream a dream that takes him from his South African black ghetto township to American and British universities and finally to the prestigious Frantz Fanon Lifetime Achievement award. His extraordinary philosophical autobiography with an emphasis on Africana existentialism that takes into account issues of racism, identity, liberation, freedom, alienation, responsibility and bad faith is supplemented by three key essays from his intellectual career representing the extraordinary contribution he has made to Africana philosophy and black existentialism.
