Sun King:

The Sun King's Atlantic Jutta Wimmeler, 2017-02-06 In *The Sun King's Atlantic* Jutta Wimmeler reveals the many surprising ways in which the Atlantic world channeled cultural developments during the age of the Sun King. Although hardly visible for contemporaries at the time, Africa and America were omnipresent throughout early modern France in the textile industry, pharmaceuticals, medicine, scientific methods, religious discourse, and court theatre. The book moves beyond typical plantation crops and the slave trade to illustrate how a focus on Europe challenges us to rethink the place of Africa in the early modern world.

In the Sun King's Cosmos Claire Goldstein, 2025-02-15 Offering a new history of a formative cultural and political era through the cosmic phenomena that captured the public's imagination. In the winters of 1664-65 and 1680-81, the French public was galvanized by two bright comets whose elliptical orbits could not be mapped with contemporary geometry and that thus seemed to appear in random and unpredictable locations. Bookending the period during which Louis XIV's sun king mythology was created, these comets defied the heliocentric order to which French politics and culture aspired. As Claire Goldstein demonstrates, literary texts, cultural institutions, and architecture inspired by comets offer a different perspective on the relationship between sensory experience, ideology, and artistic form. *In the Sun King's Cosmos* Comets and the Cultural Imagination of Seventeenth Century France presents an alternative view of a formative era in cultural and political history when distinctly modern forms of power and control were established through a regime of the spectacular. Goldstein shows how comets allow us to see the seventeenth century in ways that complicate the narrative of a race toward rationalization, classicism, and modernity, indexing instead a messy period in which the spectacular was sometimes also inscrutable.
