Sunshine Widows Adapting To Sudden Bereavement:

The Sunshine Widows Carol D. H. Harvey, Howard M. Bahr, 1980 Widows Helena Znaniecka Lopata, 2013-07-22 The volume examines two communities in Canada a Florida retirement community and communities in Ohio Nebraska and California as well as the relative situations of homeowners blacks and poor ethnic populations **The Widowed Self** Deborah Kestin van den Hoonaard, 2009-10-22 How do older women come to terms with widowhood Are they vulnerable or courageous predictable or creative in dealing with this life challenge Most books about widows usually focus on younger women this book interweaves the voices of older widows their experiences and insights to show how they have come to terms with widowhood and have recreated their lives in new unsuspected ways The widows speak about how they relate to their children their friends to men With powerful emotions they describe their husbands final illnesses and deaths and the challenging early days of widowhood Disputing stereotypes about older women and widows The Widowed Self allows the reader to visualize the impact of losing one's life partner and offers a new way of thinking about widowhood This new book by Deborah Kestin van den Hoonaard fills a void in previous work on widowhood Rather than seeing these women as unfortunate passive victims of life the reader will come to appreciate the strength and creativity with which these women face one of life's greatest challenges a challenge that affects more than half of all women over the age of sixty five Widows and their families scholars social workers and other professionals who work with older adults will all be interested in reading The Widowed Self The Older Woman's Journey through Widowhood **Widows: North America**, 1987 What happens when the husband dies depends on the society on the location of the widow in urban rural or class terms and on the widow's own personal resources In some societies the woman is totally dependent upon a grown son and cannot remarry in others such as that in the United States she is more dependent upon her own resources and wishes For some widowhood results in a great loss of status for others it can mean loneliness and social isolation Yet widowhood can mean greater social freedom for some women a blooming of personality Even grief is experienced in various ways and degrees Thus there is no such thing as a widow type only a great heterogeneity in widowhood as in wifehood Volume I analyzes the support systems and life styles of widows in Australia the Philippines Korea Iran China a Pacific island India Turkey and Israel Volume II North America examines two communities in Canada a Florida retirement community and communities in several other locations as well as the relative situations of homeowners blacks and poor ethnic populations Death and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In Death and Dying An Annotated Bibliography of the Thanatological

Literature John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill Omega ,1986

Encyclopedia of Family Life: Single-parent families-zero population growth movement, index ,1999 **Innovations in Clinical Practice** Peter A. Keller, Lawrence G. Ritt,1982 Abstract This volume of Innovations in clinical practice A 21st century sourcebook is organized into five sections that reflect the diversity of contributions to the series The first section Clinical Issues and Applications deals primarily with therapeutic concerns The various contributions however go beyond traditional therapeutic issues and also address important questions of assessment as well as treatment Issues that relate to a number of different types of clients and situations are covered The second section addresses Practice Management and Professional Development This section is included because of the increasing number of clinicians who work independently and require a source of information on practice management ethical concerns and professional development issues We remain in a period of dramatic changes that affect the nature of our practices New risks as well as opportunities are constantly emerging in this era of health care reform In this section we try to address relevant issues that we believe will be of interest to our readers Some of our discussions here also should be of interest to students and clinicians who practice in organizations or agencies The third section includes Assessment Instruments and Client Handouts The assessment instruments are primarily informal and designed to assist clinicians in collecting information about clients Our goal is to publish screening instruments and forms that aid in the organization of data rather than the making of formal inferences There are some exceptions to this rule however we believe all fall within the bounds of accepted professional practice in the format in which they are presented The materials presented here should be useful to psychologists and other professionals with minimal potential for misuse We assume that readers will be thoroughly familiar with any disorders or processes that they attempt to evaluate and readers are advised to carefully review the introductory materials that accompany contributions to this section We also have included in this section two handouts for use with your clients The fourth section on Community

Interventions reflects our view that mental health practitioners have much to offer in the community beyond traditional clinical services We trust that the material in this section will be of assistance to those who are interested in mental health consultation education prevention and expanding their services to reach new and broader populations The fifth section Selected Topics includes a variety of contributions that do not fit neatly into one of the other sections PsycINFO Database Record c 2019 APA all rights reserved Your Retirement Action for Older Persons, Inc,1984 Discusses the opportunities and emotional adjustments in retirement and supplies guidance on coping with the medical legal financial and housing problems of retired people **Middletown Revisited** Dwight W.
