Toward Wisdom Cophthorne Macdonald, 2001-10-11 Toward Wisdom addresses the nature of wisdom humanity's need for it and ways and means of developing it The situation the world faces today is extremely complex Long cherished values have begun to conflict with each other material comfort vs an uncontaminated world economic growth now vs economic well being for our grandchildren Toward Wisdom takes the position that the only way to make the world a better place is to make it a

wiser place Wisdom is no longer an option or a frill We and the world need wisdom based analyses of our problems followed by wisdom based action In the past becoming wise was left to chance a few people became wise before they died but most did not This lackadaisical approach will no longer do Wisdom can be developed intentionally and Toward Wisdom shows us how The book examines some of the key impediments to wisdom what they are how they work how they came to be and introduces us to techniques for getting beyond them Filial Obsessions P. Steven Sangren, 2017-03-13 This book employs a broad analysis of Chinese patriliney to propose a distinctive theoretical conceptualization of the role of desire in culture It utilizes a unique synthesis of Marxian and psychoanalytic insights in arguing that Chinese patriliney is best understood as simultaneously a mode of production of desire and as instituted fantasy The argument advances through discussions and analyses of kinship family gender filial piety ritual and especially mythic narratives In each of these domains P Steven Sangren addresses the complex sentiments and ambivalences associated with filial relations Unlike most earlier studies which approach Chinese patriliney and filial piety as irreducible markers of cultural difference Sangren argues that Chinese patriliney is better approached as a topic of critical inquiry in its own right **Departments of Labor, Health and Human Services, Education, and related agencies appropriations for fiscal year 1986** United States.
