## **Sun Circles And Human Hands:**

**Sun Circles and Human Hands** Emma Lila Fundaburk, Mary Douglass Fundaburk Foreman, 2001-02-22 From utilitarian arrowheads to beautiful stone effigy pipes to ornately carved shell disks the photographs and drawings in Sun Circles and Human Hands present the archaeological record of the art and native crafts of the prehistoric southeastern Indians painstakingly compiled in the 1950s by two sisters who traveled the eastern United States interviewing archaeologists and collectors and visiting the major repositories Although research over the last 50 years has disproven many of the early theories reported in the text which were not the editors theories but those of the archaeologists of the day the excellent illustrations of objects no longer available for examination have more than validated the lasting worth of this popular book

**Sun Circles and Human Hands** Mary Douglass Fundaburk Foreman, 1968      **Spirits of the Air** Shepard Krech, 2009 Before the massive environmental change wrought by the European colonization of the South hundreds of species of birds filled the region's flyways in immeasurable numbers Before disease war and displacement altered the South's earliest human landscape Native Americans hunted and ate birds and made tools and weapons from their beaks bones and talons More significant to Shepard Krech III Indians adorned themselves with feathers invoked avian powers in ceremonies and dances and incorporated bird imagery on pottery carvings and jewelry Krech a renowned authority on Native American interactions with nature reveals as never before the omnipresence of birds in Native American life From the time of the earliest known renderings of winged creatures in stone and earthworks through the nineteenth century when Native southerners took part in decimating bird species with highly valued fashionable plumage Spirits of the Air examines the complex and changeable influences of birds on the Native American worldview We learn of birds for which places and people were named birds common in iconography and oral traditions birds important in ritual and healing and birds feared for their links to witches and other malevolent forces Still other birds had no meaning for Native Americans Krech shows us these invisible animals too enriching our understanding of both the Indian bird dynamic and the incredible diversity of winged life once found in the South A crowning work drawing on Krech's distinguished career in anthropology and natural history Spirits of the Air recovers vanished worlds and shows us our own anew

**Sun Circles and Human Hand** Emma Lila Fundaburk, Foreman Mary Douglas Fundaburk, 1957      **Early Art of the Southeastern Indians** Susan C. Power, 2004 Early Art of the Southeastern Indians is a visual journey through time highlighting some of the most skillfully created art in native North America The remarkable objects described and pictured here many in full color reveal the hands of master artists who developed lapidary and weaving traditions established centers for production of shell and copper objects and created the first ceramics in North America Presenting artifacts originating in the Archaic through the Mississippian periods from thousands of years ago through A D 1600 Susan C Power introduces us to an extraordinary assortment of ceremonial and functional objects including pipes vessels figurines and much more Drawn from every corner of the Southeast from Louisiana to the

Ohio River valley from Florida to Oklahoma the pieces chronicle the emergence of new media and the mastery of new techniques as they offer clues to their creators widening awareness of their physical and spiritual worlds The most complex works writes Power were linked to male and sometimes female leaders Wearing bold ensembles consisting of symbolic colors sacred media and richly complex designs the leaders controlled large ceremonial centers that were noteworthy in regional art history such as Etowah Georgia Spiro Oklahoma Cahokia Illinois and Moundville Alabama Many objects were used locally others circulated to distant locales Power comments on the widening of artists subjects starting with animals and insects moving to humans then culminating in supernatural combinations of both and she discusses how a piece s artistic language could function as a visual shorthand in local style and expression yet embody an iconography of regional proportions The remarkable achievements of these southeastern artists delight the senses and engage the mind while giving a brief glimpse into the rich symbolic world of feathered serpents and winged beings *Elements of Southeastern Indian Religion* Hudson,2023-09-20 Scholarly monographs on the iconography of indigenous North American religions **Creeks & Seminoles** James Leitch Wright,1986 During Andrew Jackson s time the Creeks and Seminoles Muscogulges were the largest group of Indians living on the frontier In Georgia Alabama and Florida they manifested a geographical and cultural but not a political cohesiveness Ethnically and linguistically they were highly diverse This book is the first to locate them firmly in their full historical context **What are the Animals to Us?** David Aftandilian,2007 In What Are the Animals to Us scholars from a wide variety of academic disciplines explore the diverse meanings of animals in science religion folklore literature and art *Fairy Circles.
